### REVENUE DEPARTMENT.

**A Dictionary of the Economic Products of India.**

By DA. GZO. WATT, C.I.E.

*Reporter on Economic Products.*

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and Euro ena names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 569 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

(3) No charge shall be made by the Court or the Collector for the service or publication of any notice served or published under sub-section (2).

12. (1) The Court may direct that the person, if any, having the custody of the minor shall produce him or cause him to be produced at such place and time and before such person as it appoints, and may make such order for the temporary custody and protection of the person or property of the minor as it thinks proper.

(2) If the minor is a female who ought not to be compelled to appear in public, the direction under sub-section (1) for her production shall require her to be produced in accordance with the customs and manners of the country.

(3) Nothing in this section shall authorise—

- (a) the Court to place a female minor in the temporary custody of a person claiming

to be her guardian on the ground of his being her husband, unless she is already in his custody with the consent of her parents, if any, or

- (b) any person to whom the temporary custody and protection of the property of a minor is entrusted to dispossess otherwise than by due course of law any person in possession of any of the property.

13. On the day fixed for the hearing of the application, or as soon afterwards as may be, the Court shall hear such evidence as may be adduced in support of or in opposition to the application.

14. (1) If proceedings for the appointment or declaration of a guardian of a minor are taken in more Courts than one, each of those Courts shall, on being apprised of the proceedings in the other Court or Courts, stay the proceedings before itself.

(2) If the Courts are both or all subordinate to the same High Court, they shall report the case to the High Court, and the High Court shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had.

(3) In any other case in which proceedings are stayed under sub-section (1), the Courts shall report the case through the Local Government to the Governor General in Council, and the Governor General in Council shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had.

15. (1) If the law to which the minor is subject admits of his having two or more joint guardians of his person or property, or both, the Court may, if it thinks fit, appoint or declare them.

(2) On the death of a father, being an European British subject, who has, by will or other instrument to take effect on his death, appointed a guardian of his minor child, the Court may appoint the mother to be guardian of the child jointly with the guardian appointed by the father.

(3) On the death of a mother, being an European British subject, who during the incapacity of the father of her minor child has, by will or other instrument to take effect on her death, appointed a guardian of the child, the Court may, if the father becomes capable of acting, appoint him to be sole guardian of the child or guardian of the child jointly with the guardian appointed by the mother, as it thinks fit.

*The Guardians and Wards Act, 1890.**(Chapter II.—Appointment and Declaration of Guardians.—Sections 16-19.)**Chapter III.—Duties, Rights and Liabilities of Guardians.—Sections 20-22*

(4) Separate guardians may be appointed or declared of the person and of the property of a minor.

(5) If a minor has several properties, the Court may, if it thinks fit, appoint or declare a separate guardian for any one or more of the properties.

**16.** If the Court appoints or declares a guardian for any property situate beyond the local limits of its jurisdiction, the Court having jurisdiction in the place where the property is situate shall, on production of a certified copy of the order appointing or declaring the guardian, accept him as duly appointed or declared and give effect to the order.

**17.** (1) In appointing or declaring the guardian of a minor the Court shall, subject to the provisions of this section, be guided by what, consistently with the law to which the minor is subject, appears in the circumstances to be for the welfare of the minor.

(2) In considering what will be for the welfare of the minor, the Court shall have regard to the age, sex and religion of the minor, the character and capacity of the proposed guardian and his nearness of kin to the minor, the wishes, if any, of a deceased parent, and any existing or previous relations of the proposed guardian with the minor or his property.

(3) If the minor is old enough to form an intelligent preference, the Court may consider that preference.

(4) As between parents who are European British subjects adversely claiming the guardianship of the person, neither parent is entitled to it as of right, but, other things being equal, if the minor is a male of tender years or a female, the minor should be given to the mother, and if the minor is a male of an age to require education and preparation for labour and business, then to the father.

(5) The Court shall not appoint or declare any person to be a guardian against his will.

**18.** Where a Collector is appointed or declared by the Court in virtue of his office to be guardian of the person or property, or both, of a minor, the order appointing or declaring him shall be deemed to authorise and require the person for the time being holding the office to act as guardian of the minor with respect to his person or property, or both, as the case may be.

**19.** Nothing in this Chapter shall authorise the Court to appoint or declare a guardian of the property of a minor whose property is under the superintendence of a Court of Wards, or to appoint or declare a guardian of the person—

(a) of a minor who is a married female and whose husband is not, in the opinion of the Court, unfit to be guardian of her person, or,

(b) subject to the provisions of this Act with respect to European British subjects, of a minor whose father is living and is not, in the opinion of the Court, unfit to be guardian of the person of the minor, or

(c) of a minor whose property is under the superintendence of a Court of Wards competent to appoint a guardian of the person of the minor.

## CHAPTER III.

## DUTIES, RIGHTS AND LIABILITIES OF GUARDIANS.

*General.*

**20.** (1) A guardian stands in a fiduciary relation to his ward, and, save as provided by the will or other instrument, if any, by which he was appointed, or by this Act, he must not make any profit out of his office.

(2) The fiduciary relation of a guardian to his ward extends to and affects purchases by the guardian of the property of the ward, and by the ward of the property of the guardian, immediately or soon after the ward has ceased to be a minor, and generally all transactions between them while the influence of the guardian still lasts or is recent.

**21.** A minor is incompetent to act as guardian of any minor except his own wife or child or, where he is the managing member of an undivided Hindu family, the wife or child of another minor member of that family.

**22.** (1) A guardian appointed or declared by the Court shall be entitled to such allowance, if any, as the Court thinks fit for his care and pains in the execution of his duties.

(2) When an officer of the Government, as such officer, is so appointed or declared to be guardian, such fees shall be paid to the Government out of the property of the ward as the Local Government, by general or special order, directs.

*The Guardians and Wards Act, 1890.**(Chapter III.—Duties, Rights and Liabilities of Guardians.—Sections 23-31.)*

**23.** A Collector appointed or declared by the Court to be guardian of the person or property, or both, of a minor shall, in all matters connected with the guardianship of his ward, be subject to the control of the Local Government or of such authority as that Government, by notification in the official Gazette, appoints in this behalf.

Control of Collector as guardian.

*Guardian of the Person.*

**24.** A guardian of the person of a ward is charged with the custody of the ward, and must look to his support, health and education, and such other matters as the law to which the ward is subject requires.

Duties of guardian of the person.

**25.** (1) If a ward leaves or is removed from the custody of a guardian of his person, the Court, if it is of opinion that it will be for the welfare of the ward to return to the custody of his guardian, may make an order for his return, and for the purpose of enforcing the order may cause the ward to be arrested and to be delivered into the custody of the guardian.

(2) For the purpose of arresting the ward, the Court may exercise the power conferred on a Magistrate of the first class by section 100 of the Code of Criminal Procedure, 1882.

(3) The residence of a ward against the will of his guardian with a person who is not his guardian does not of itself terminate the guardianship.

**26.** (1) A guardian of the person appointed or declared by the Court, unless he is the Collector or is a guardian appointed by will or other instrument, shall not, without the leave of the Court by which he was appointed or declared, remove the ward from the limits of its jurisdiction except for such purposes as may be prescribed.

(2) The leave granted by the Court under subsection (1) may be special or general, and may be defined by the order granting it.

*Guardian of Property.*

**27.** A guardian of the property of a ward is bound to deal therewith as carefully as a man of ordinary prudence would deal with it if it were his own, and, subject to the provisions of this Chapter, he may do all acts which are reason-

able and proper for the realisation, protection or benefit of the property.

**28.** Where a guardian has been appointed by will or other instrument, his power to mortgage or charge, or transfer by sale, gift, exchange or otherwise, immoveable property belonging to his ward is subject to any restriction which may be imposed by the instrument, unless he has under this Act been declared guardian and the Court which made the declaration permits him by an order in writing, notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order.

**29.** Where a person other than a Collector, or than a guardian appointed by will or other instrument, has been appointed or declared by the Court to be guardian of the property of a ward, he shall not, without the previous permission of the Court,—

(a) mortgage or charge, or transfer by sale, gift, exchange or otherwise, any part of the immoveable property of his ward, or

(b) lease any part of that property for a term exceeding five years or for any term extending more than one year beyond the date on which the ward will cease to be a minor.

**30.** A disposal of immoveable property by a guardian in contravention of either of the two last foregoing sections is voidable at the instance of any other person affected thereby.

**31.** (1) Permission to the guardian to do any of the acts mentioned in section 29 shall not be granted by the Court except in case of necessity or for an evident advantage to the ward.

(2) The order granting the permission shall recite the necessity or advantage, as the case may be, describe the property with respect to which the act permitted is to be done, and specify such conditions, if any, as the Court may see fit to attach to the permission; and it shall be recorded, dated and signed by the Judge of the Court with his own hand, or, when from any cause he is prevented from recording the order with his own hand, shall be taken down in writing from his dictation and be dated and signed by him.

(3) The Court may in its discretion attach to the permission the following among other conditions, namely:—

(a) that a sale shall not be completed without the sanction of the Court;

*The Guardians and Wards Act, 1890.***(Chapter III.—Duties, Rights and Liabilities of Guardians.—Sections 32-35.)**

- (b) that a sale shall be made to the highest bidder by public auction, before the Court or some person specially appointed by the Court for that purpose, at a time and place to be specified by the Court, after such proclamation of the intended sale as the Court, subject to any rules made under this Act by the High Court, directs;
- (c) that a lease shall not be made in consideration of a premium or shall be made for such term of years and subject to such rents and covenants as the Court directs;
- (d) that the whole or any part of the proceeds of the act permitted shall be paid into the Court by the guardian, to be disbursed therefrom or to be invested by the Court on prescribed securities or to be otherwise disposed of as the Court directs.

(4) Before granting permission to a guardian to do an act mentioned in section 29, the Court may cause notice of the application for the permission to be given to any relative or friend of the ward who should, in its opinion, receive notice thereof, and shall hear and record the statement of any person who appears in opposition to the application.

**32.** Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Collector, the Court may, from time to time, by order, define, restrict or extend his powers with respect to the property of the ward in such manner and to such extent as it may consider to be for the advantage of the ward and consistent with the law to which the ward is subject.

**33.** (1) A guardian appointed or declared by the Court may apply by petition to the Court which appointed or declared him for its opinion, advice or direction on any present question respecting the management or administration of the property of his ward.

(2) If the Court considers the question to be proper for summary disposal, it shall cause a copy of the petition to be served on, and the hearing thereof may be attended by, such of the persons interested in the application as the Court thinks fit.

(3) The guardian stating in good faith the facts in the petition and acting upon the opinion, advice or direction given by the Court shall be deemed, so far as regards his own responsibility, to have performed his duty as guardian in the subject-matter of the application.

**34.** Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Collector, he shall,—

Obligations on guardian of property appointed or declared by the Court.

- (a) if so required by the Court, give a bond, as nearly as may be in the prescribed form, to the Judge of the Court to enure for the benefit of the Judge for the time being, with or without sureties, as may be prescribed, engaging duly to account for what he may receive in respect of the property of the ward;
- (b) if so required by the Court, deliver to the Court, within six months from the date of his appointment or declaration by the Court, or within such other time as the Court directs, a statement of the immoveable property belonging to the ward, of the money and other moveable property which he has received on behalf of the ward up to the date of delivering the statement, and of the debts due on that date to or from the ward;
- (c) if so required by the Court, exhibit his accounts in the Court at such times and in such form as the Court from time to time directs;
- (d) if so required by the Court, pay into the Court at such time as the Court directs the balance due from him on those accounts, or so much thereof as the Court directs; and
- (e) apply for the maintenance, education and advancement of the ward and of such persons as are dependent on him, and for the celebration of ceremonies to which the ward or any of those persons may be a party, such portion of the income of the property of the ward as the Court from time to time directs, and, if the Court so directs, the whole or any part of that property.

**35.** Where a guardian appointed or declared by the Court has given a bond duly to account for what he may receive in respect of the property of his ward, the Court may, on application made by petition and on being satisfied that the engagement of the bond has not been kept, and upon such terms as to security, or providing that any money received be paid into the Court, or otherwise as the Court thinks fit, assign the bond to some proper person, who shall thereupon be entitled to sue on the bond in his own name as if the bond had been originally given to him instead of to the Judge of the Court, and shall be entitled to recover thereon, as trustee for the ward, in respect of any breach thereof.

*The Guardians and Wards Act, 1890.**(Chapter III.—Duties, Rights and Liabilities of Guardians.—Sections 36-41.)*

36. (1) Where a guardian appointed or declared by the Court has not given a bond as aforesaid, any person, with the leave of the Court, may, as next friend, at any time during the continuance of the minority of the ward, and upon such terms as aforesaid, institute a suit against the guardian, or, in case of his death, against his representative, for an account of what the guardian has received in respect of the property of the ward, and may recover in the suit, as trustee for the ward, such amount as may be found to be payable by the guardian or his representative, as the case may be.

(2) The provisions of sub-section (1) shall, so far as they relate to a suit against a guardian, be subject to the provisions of section 440 of the Code of Civil Procedure as amended by this Act.

37. Nothing in either of the two last foregoing sections shall be construed to deprive a ward or his representative of any remedy against his guardian, or the representative of the guardian, which, not being expressly provided in either of those sections, any other beneficiary or his representative would have against his trustee or the representative of the trustee.

*Termination of Guardianship.*

38. On the death of one of two or more joint guardians, the guardianship continues to the survivor or survivors until a further appointment is made by the Court.

39. The Court may, on the application of any person interested, or of its own motion, remove a guardian appointed or declared by the Court, or a guardian appointed by will or other instrument, for any of the following causes, namely:—

- (a) for abuse of his trust;
- (b) for continued failure to perform the duties of his trust;
- (c) for incapacity to perform the duties of his trust;
- (d) for ill-treatment, or neglect to take proper care, of his ward;
- (e) for contumacious disregard of any provision of this Act or of any order of the Court;
- (f) for conviction of an offence implying, in the opinion of the Court, a defect of character which unfits him to be the guardian of his ward;
- (g) for having an interest adverse to the faithful performance of his duties;
- (h) for ceasing to reside within the local limits of the jurisdiction of the Court;

- (i) in the case of a guardian of the property for bankruptcy or insolvency;
- (j) by reason of the guardianship of the guardian ceasing, or being liable to cease, under the law to which the minor is subject:

Provided that a guardian appointed by will or other instrument, whether he has been declared under this Act or not, shall not be removed—

- (a) for the cause mentioned in clause (g) unless the adverse interest accrued after the death of the person who appointed him, or it is shown that that person made and maintained the appointment in ignorance of the existence of the adverse interest, or
- (b) for the cause mentioned in clause (h) unless such guardian has taken up such a residence as, in the opinion of the Court, renders it impracticable for him to discharge the functions of guardian.

40. (1) If a guardian appointed or declared by the Court desires to resign his office, he may apply to the Court to be discharged.

(2) If the Court finds that there is sufficient reason for the application, it shall discharge him, and, if the guardian making the application is the Collector and the Local Government approves of his applying to be discharged, the Court shall in any case discharge him.

41. (1) The powers of a guardian of the person cease—

- (a) by his death, removal or discharge;
- (b) by the Court of Wards assuming superintendence of the person of the ward;
- (c) by the ward ceasing to be a minor;
- (d) in the case of a female ward, by her marriage to a husband who is not unfit to be guardian of her person or, if the guardian was appointed or declared by the Court, by her marriage to a husband who is not, in the opinion of the Court, so unfit; or,
- (e) in the case of a ward whose father was unfit to be guardian of the person of the ward, by the father ceasing to be so or, if the father was deemed by the Court to be so unfit, by his ceasing to be so in the opinion of the Court.

(2) The powers of a guardian of the property cease—

- (a) by his death, removal or discharge;
- (b) by the Court of Wards assuming superintendence of the property of the ward; or
- (c) by the ward ceasing to be a minor.

*The Guardians and Wards Act, 1890.**(Chapter III.—Duties, Rights and Liabilities of Guardians.—Section 42. Chapter IV.—Supplemental Provisions.—Sections 43-45.)*

(3) When for any cause the powers of a guardian cease, the Court may require him or, if he is dead, his representative to deliver as it directs any property in his possession or control belonging to the ward or any accounts in his possession or control relating to any past or present property of the ward.

(4) When he has delivered the property or accounts as required by the Court, the Court may declare him to be discharged from his liabilities save as regards any fraud which may subsequently be discovered.

**42.** When a guardian appointed or declared by the Court is discharged, or, under the law to which the ward is subject, ceases to be entitled to act, or when any such guardian or a guardian appointed by will or other instrument is removed or dies, the Court, of its own motion or on application under Chapter II, may, if the ward is still a minor, appoint or declare another guardian of his person or property, or both, as the case may be.

Appointment of successor to guardian dead, discharged or removed.

## CHAPTER IV.

## SUPPLEMENTAL PROVISIONS.

**43. (1)** The Court may, on the application of any person interested or of its own motion, make an order regulating the conduct or proceedings of any guardian appointed or declared by the Court.

Orders for regulating conduct or proceedings of guardians, and enforcement of those orders.

(2) Where there are more guardians than one of a ward and they are unable to agree upon a question affecting his welfare, any of them may apply to the Court for its direction, and the Court may make such order respecting the matter in difference as it thinks fit.

(3) Except where it appears that the object of making an order under sub-section (1) or sub-section (2) would be defeated by the delay, the Court shall, before making the order, direct notice of the application therefor or of the intention of the Court to make it, as the case may be, to be given, in a case under sub-section (1), to the guardian or, in a case under sub-section (2), to the guardian who has not made the application.

(4) In case of disobedience to an order made under sub-section (1) or sub-section (2), the order may be enforced in the same manner as an injunction granted under section 492 or section 493 of the Code of Civil Procedure, in a case under sub-section (1), as if the ward were the plaintiff and the guardian were the

defendant or, in a case under sub-section (2), as if the guardian who made the application were the plaintiff and the other guardian were the defendant.

(5) Except in a case under sub-section (2), nothing in this section shall apply to a Collector who is, as such, a guardian.

**44.** If, for the purpose or with the effect of preventing the Court from exercising its authority with respect to a ward, a guardian appointed or declared by the Court removes the ward from the limits of the jurisdiction of the Court in contravention of the provisions of section 26, he shall be liable, by order of the Court, to fine not exceeding one thousand rupees, or to imprisonment in the civil jail for a term which may extend to six months.

**45. (1)** In the following cases, namely:—

- (a) if a person having the custody of a minor fails to produce him or cause him to be produced in compliance with a direction under section 12, sub-section (1), or to do his utmost to compel the minor to return to the custody of his guardian in obedience to an order under section 25, sub-section (1), or
- (b) if a guardian appointed or declared by the Court fails to deliver to the Court, within the time allowed by or under clause (b) of section 34, a statement required under that clause, or to exhibit accounts in compliance with a requisition under clause (c) of that section, or to pay into the Court the balance due from him on those accounts in compliance with a requisition under clause (d) of that section, or
- (c) if a person who has ceased to be a guardian, or the representative of such a person, fails to deliver any property or accounts in compliance with a requisition under section 41, sub-section (3),

the person, guardian or representative, as the case may be, shall be liable, by order of the Court, to fine not exceeding one hundred rupees, and in case of recusancy to further fine not exceeding ten rupees for each day after the first during which the default continues, and not exceeding five hundred rupees in the aggregate, and to detention in the civil jail until he undertakes to produce the minor or cause him to be produced, or to compel his return, or to deliver the statement, or to exhibit the accounts, or to pay the balance, or to deliver the property or accounts, as the case may be.

(2) If a person who has been released from detention on giving an undertaking under sub-section (1) fails to carry out the undertaking

*The Guardians and Wards Act, 1890.**(Chapter IV.—Supplemental Provisions.—Sections 46-51.)*

within the time allowed by the Court, the Court may cause him to be arrested and re-committed to the civil jail.

46. (1) The Court may call upon the Collector, or, or upon any Court subordinate to the Court, for a report on any matter arising in any proceeding under this Act and treat the report as evidence.

(2) For the purpose of preparing the report the Collector or the Judge of the subordinate Court, as the case may be, shall make such inquiry as he deems necessary, and may for the purposes of the inquiry exercise any power of compelling the attendance of a witness to give evidence or produce a document which is conferred on a Court by the Code of Civil Procedure.

47. An appeal shall lie to the High Court from an order made by a District Court,—

- (a) under section 7, appointing or declaring or refusing to appoint or declare a guardian; or,
- (b) under section 9, sub-section (3), returning an application; or,
- (c) under section 25, making or refusing to make an order for the return of a ward to the custody of his guardian; or,
- (d) under section 26, refusing leave for the removal of a ward from the limits of the jurisdiction of the Court, or imposing conditions with respect thereto; or,
- (e) under section 28 or section 29, refusing permission to a guardian to do an act referred to in the section; or,
- (f) under section 32, defining, restricting or extending the powers of a guardian; or,
- (g) under section 39, removing a guardian; or
- (h) under section 40, refusing to discharge a guardian; or,
- (i) under section 43, regulating the conduct or proceedings of a guardian or settling a matter in difference between joint guardians, or enforcing the order; or,
- (j) under section 44 or section 45, imposing a penalty.

48. Save as provided by the last foregoing section and by section 622 of the Code of Civil Procedure, an order made under this Act shall be final, and shall not be liable to be contested by suit or otherwise.

49. The costs of any proceeding under this Act, including the costs of maintaining a guardian or other person in the civil jail, shall, subject to

any rules made by the High Court under this Act, be in the discretion of the Court in which the proceeding is had.

50. (1) In addition to any other power to make rules conferred expressly or impliedly by this Act, the High Court may from time to time make rules consistent with this Act—

- (a) as to the matters respecting which, and the time at which, reports should be called for from Collectors and subordinate Courts;
- (b) as to the allowances to be granted to, and the security to be required from, guardians, and the cases in which such allowances should be granted;
- (c) as to the procedure to be followed with respect to applications of guardians for permission to do acts referred to in sections 28 and 29;
- (d) as to the circumstances in which such requisitions as are mentioned in clauses (a), (b), (c) and (d) of section 34 should be made;
- (e) as to the preservation of statements and accounts delivered and exhibited by guardians;
- (f) as to the inspection of those statements and accounts by persons interested;
- (g) as to the custody of money, and securities for money, belonging to wards;
- (h) as to the securities on which money belonging to wards may be invested;
- (i) as to the education of wards for whom guardians, not being Collectors, have been appointed or declared by the Court; and,
- (j) generally, for the guidance of the Courts in carrying out the purposes of this Act.

(2) Rules under clauses (a) and (i) of sub-section (1) shall not have effect until they have been approved by the Local Government, nor shall any rule under this section have effect until it has been published in the official Gazette.

51. A guardian appointed by, or holding a certificate of administration from, a Civil Court under any enactment repealed by this Act shall, save as may be prescribed, be subject to the provisions of this Act, and of the rules made under it, as if he had been appointed or declared by the Court under Chapter II.

*The Guardians and Wards Act, 1890.**(Chapter IV.—Supplemental Provisions.—Sections 52-53.)*

X of 1875.

52. In section 3 of the Indian Majority Act, 1875, for the words "every minor of whose person or property a guardian has been or shall be appointed by any Court of Justice, and every minor under the jurisdiction of any Court of Wards," the following shall be substituted, namely,—

"every minor of whose person or property, or both, a guardian, other than a guardian for a suit within the meaning of Chapter XXXI of the Code of Civil Procedure, has been or shall be appointed or declared by any Court of Justice before the minor has attained the age of eighteen years, and every minor of whose property the superintendence has been or shall be assumed by any Court of Wards before the minor has attained that age."

XIV of 1882.

XIV of 1882.

53. Chapter XXXI of the Code of Civil Procedure shall be amended as follows, namely:—

A.—To section 440 of the said Code the following shall be added, namely:—

"If a minor has a guardian appointed or declared by an authority competent in this behalf, a suit shall not be instituted on behalf of the minor by any person other than such guardian except with the leave of the Court granted after notice to such guardian and after hearing any objections which he may desire to make with respect to the institution of the suit, and the Court shall not grant such leave unless it is of opinion that it is for the welfare of the minor that the person proposing to institute the suit in the name of the minor should be permitted to do so."

B.—To section 443 of the said Code the following shall be added, namely:—

"Where an authority competent in this behalf has appointed or declared a guardian or guardians of the person or property, or both, of the minor, the Court shall appoint him or one of them, as the case may be, to be the guardian for the suit under this section unless it considers, for reasons to be recorded by it, that some other person ought to be so appointed."

C.—After section 446 of the said Code the following shall be added, namely:—

"If the next friend is not a guardian appointed or declared by an authority com-

petent in this behalf, and an application is made by a guardian so appointed or declared who desires to be himself appointed in the place of the next friend, the Court shall remove the next friend unless it considers, for reasons to be recorded by it, that the guardian ought not to be appointed the next friend of the minor."

D.—For section 461 of the said Code the following shall be substituted, namely:—

"461. (1) A next friend or guardian for the suit shall not, without the leave of the Court, receive any money or other moveable property on behalf of a minor, either—

"(2) Where the next friend or guardian for the suit has not been appointed or declared by competent authority to be guardian of the property of the minor, or, having been so appointed or declared, is under any disability known to the Court to receive the money or other moveable property, the Court shall, if it grants him leave to receive the property, require such security and give such directions as will, in its opinion, sufficiently protect the property from waste and ensure its proper application."

VII of 1888.

"464. Nothing in this Chapter applies to a Sovereign Prince or ruling Chief suing or being sued in the name of his State or being sued, by direction of the Governor General in Council or a Local Government, in the name of an agent or in any other name, or shall be construed to affect, or in any way derogate from, the provisions of any local law for the time being in force relating to suits by or against minors or by or against lunatics or other persons of unsound mind."

14. (1) Where a railway administration has constructed a railway across a public road on the level, the Governor General in Council may at any time, if it appears to him necessary for the public safety, require the railway administration, within such time as he thinks fit, to carry the road either under or over the railway by means of a bridge or arch, with convenient ascents and descents and other convenient approaches, instead of crossing the road on the level, or to execute such other works as, in the circumstances of the case, may appear to the Governor General in Council to be best adapted for removing or diminishing the danger arising from the level-crossing.

(2) The Governor General in Council may require, as a condition of making a requisition under sub-section (1), that the local authority, if any, which maintains the road shall undertake to pay the whole of the cost to the railway administration of complying with the requisition or such portion of the cost as the Governor General in Council thinks just.

Removal of trees dangerous to or obstructing the working of a railway.

- (b) when a tree obstructs the view of any fixed signal,

the railway administration may, with the permission of any Magistrate, fell the tree or deal with it in such other manner as will in the opinion of the railway administration avert the danger or remove the obstruction, as the case may be.

*The Indian Railways Act, 1890.**(Chapter IV.—Opening of Railways.—Sections 16-19.)*

(2) In case of emergency the power mentioned in sub-section (1) may be exercised by a railway administration without the permission of a Magistrate.

(3) Where a tree felled or otherwise dealt with under sub-section (1) or sub-section (2) was in existence before the railway was constructed or the signal was fixed, any Magistrate may, upon the application of the persons interested in the tree, award to those persons such compensation as he thinks reasonable.

(4) Such an award, subject, where made in a presidency-town by any Magistrate other than the Chief Presidency Magistrate or where made elsewhere by any Magistrate other than the District Magistrate, to revision by the Chief Presidency Magistrate or the District Magistrate, as the case may be, shall be final.

(5) A Civil Court shall not entertain a suit to recover compensation for any tree felled or otherwise dealt with under this section.

## CHAPTER IV.

## OPENING OF RAILWAYS.

16. (1) A railway administration may, with the previous sanction of the Governor General in Council, use upon a railway locomotive engines or other motive power, and rolling-stock to be drawn or propelled thereby.

(2) But rolling-stock shall not be moved upon a railway by steam or other motive power until such general rules for the railway as may be deemed to be necessary have been made, sanctioned and published under this Act.

17. (1) Subject to the provisions of sub-section (2), a railway administration shall, one month at least before it intends to open any railway for the public carriage of passengers, give to the Governor General in Council notice in writing of its intention.

(2) The Governor General in Council may in any case, if he thinks fit, reduce the period of, or dispense with, the notice mentioned in sub-section (1).

18. A railway shall not be opened for the public carriage of passengers until the Governor General in Council, or an Inspector empowered by the Governor General in Council in this behalf, has by order sanctioned the opening thereof for that purpose.

19. (1) The sanction of the Governor General in Council under the last foregoing section shall not be given until an Inspector has, after inspection of the railway, reported in writing to the Governor General in Council—

(a) that he has made a careful inspection of the railway and rolling-stock;

(b) that the moving and fixed dimensions prescribed by the Governor General in Council have not been infringed;

(c) that the weight of rails, strength of bridges, general structural character of the works, and the size of and maximum gross load upon the axles of any rolling-stock are such as have been prescribed by the Governor General in Council;

(d) that the railway is sufficiently supplied with rolling-stock;

(e) that general rules for the working of the railway when opened for the public carriage of passengers have been made, sanctioned and published under this Act; and

(f) that, in his opinion, the railway can be opened for the public carriage of passengers without danger to the public using it.

(2) If in the opinion of the Inspector the railway cannot be so opened without danger to the public using it, he shall state that opinion together with the grounds therefor to the Governor General in Council, and the Governor General in Council may thereupon order the railway administration to postpone the opening of the railway.

(3) An order under the last foregoing subsection must set forth the requirements to be complied with as a condition precedent to the opening of the railway being sanctioned, and shall direct the postponement of the opening of the railway until those requirements have been complied with or the Governor General in Council is otherwise satisfied that the railway can be opened without danger to the public using it.

(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council thinks necessary for the safety of the public.

(5) When sanction for the opening of a railway is given subject to conditions and the railway administration fails to fulfil those conditions, the sanction shall be deemed to be void and the railway shall not be worked or used until the conditions are fulfilled to the satisfaction of the Governor General in Council.

*The Indian Railways Act, 1890.**(Chapter IV.—Opening of Railways.—Sections 20-26.)*

**20. (1)** The provisions of sections 17, 18 and 19 with respect to the opening of a railway shall extend to the opening of the works mentioned in sub-section (2) when those works form part of, or are directly connected with, a railway used for the public carriage of passengers and have been constructed after the inspection which preceded the first opening of the railway.

**(2)** The works referred to in sub-section (1) are additional lines of railway, deviation lines, stations, junctions and crossings on the level, and any alteration or re-construction materially affecting the structural character of any work to which the provisions of sections 17, 18 and 19 apply or are extended by this section.

**21.** When an accident has occurred resulting in a temporary suspension of traffic, and either the original line and works have been rapidly restored to their original standard, or a temporary diversion has been laid for the purpose of restoring communication, the original line and works so restored, or the temporary diversion, as the case may be, may, in the absence of the Inspector, be opened for the public carriage of passengers, subject to the following conditions, namely:—

- (a)** that the railway servant in charge of the works undertaken by reason of the accident has certified in writing that the opening of the restored line and works, or of the temporary diversion, will not in his opinion be attended with danger to the public using the line and works or the diversion; and
- (b)** that notice by telegraph of the opening of the line and works or the diversion shall be sent, as soon as may be, to the Inspector appointed for the railway.

**22.** The Governor General in Council may make rules defining the cases in which, and in those cases the extent to which, the procedure prescribed in sections 17 to 20 (both inclusive) may be dispensed with.

**23. (1)** When, after inspecting any open railway used for the public carriage of passengers, or any rolling-stock used thereon, an Inspector is of opinion that the use of the railway or of any specified rolling-stock will be attended with danger to the public using it, he shall state that opinion, together with the grounds therefor, to the Governor General in Council; and the Governor General in Council may thereupon order that the railway be closed for the public carriage of passengers, or that the use of the rolling-stock so

specified be discontinued, or that the railway or the rolling-stock so specified be used for the public carriage of passengers on such conditions only as the Governor General in Council may consider necessary for the safety of the public.

**(2)** An order under sub-section (1) must set forth the grounds on which it is founded.

**24. (1)** When a railway has been closed under the last foregoing section, it shall not be re-opened for the public carriage of passengers until it has been inspected, and its re-opening sanctioned, in accordance with the provisions of this Act.

**(2)** When the Governor General in Council has ordered under the last foregoing section that the use of any specified rolling-stock be discontinued, that rolling-stock shall not be used until an Inspector has reported that it is fit for use and the Governor General in Council has sanctioned its use.

**(3)** When the Governor General in Council has imposed under the last foregoing section any conditions with respect to the use of any railway or rolling-stock, those conditions shall be observed until they are withdrawn by the Governor General in Council.

**25. (1)** The Governor General in Council may, by general or special order, authorise the discharge of any of his functions under this Chapter by an Inspector, and may cancel any sanction or order given by an Inspector discharging any such function or attach thereto any condition which the Governor General in Council might have imposed if the sanction or order had been given by himself.

**(2)** A condition imposed under sub-section (1) shall for all the purposes of this Act have the same effect as if it were attached to a sanction or order given by the Governor General in Council.

(c) where any other difference, being a difference between railway administrations or one to which a railway administration is a party, arises, and the parties thereto apply to the Governor General in Council to have it referred to the Commissioners;

(3) At the hearing the Commissioners may permit any party to appear before them either by himself or by any legal practitioner entitled to practise in any High Court.

(b) in any other case, to the High Court of which the Law Commissioner was a member.

(3) Such an appeal must be presented within six months from the date of the order appealed from, and shall be heard by a bench of as many Judges, not being fewer than three, as the High Court may by rule prescribe.

Chapter, and prescribing fees to be taken in relation to proceedings before the Commissioners.

35. The costs of and incidental to any proceedings before the Commissioners or the High Court under this Chapter shall be in the discretion of the Commissioners or the High Court, as the case may be, and the payment of costs awarded by the Commissioners may be enforced by the Court of which the Law Commissioner was a Judge as if the payment had been ordered by a decree of a High Court.

36. (1) The Court of which the Law Commissioner was a Judge may, if it appears on the application of any person who was a party to the proceedings before the Commissioners or on appeal before the High Court, or of the representative of any such person, that an injunction made under this Chapter by the Commissioners or by a High Court has not been obeyed by the party enjoined, order such party to pay a sum not exceeding one thousand rupees for every day during which the injunction is disobeyed after the date of the order directing such payment.

(2) The payment of such sum may be enforced by the Court which made the order as if that Court had given a decree for the same, and the Court may direct that the whole or any part of the sum shall be paid to the person making the application under subsection (1) or to the Government.

37. A document purporting to be signed by the Commissioners, or any of them, shall be received in evidence without proof of the signature, and shall, until the contrary is proved, be deemed to have been so signed and to have been duly executed or issued by the Commissioners.

38. The Commissioners shall, as soon as may be after the disposal of each case referred to them, submit to the Governor General in Council a special report on the case, and the Governor General in Council shall cause the report to be published in such manner as he thinks fit for the information of persons interested in the subject-matter thereof.

39. Except for the purpose of the last foregoing section, a Railway Commission shall be deemed to be dissolved at the close of the last of the sittings of the Commissioners for the decision of the cases referred to them:

Provided that, on the application of any person who was a party to the proceedings before

the Commissioners, or of the representative of any such person, the Governor General in Council may, if he thinks fit, in any case in which the order passed by the Commissioners is not open to appeal, re-appoint the Commissioners for the purpose of hearing an application for a review of their decision and of granting the same and re-hearing the case if they think that the case should be re-heard.

40. Subject to the foregoing provisions of this Chapter and to any direction of Her Majesty in Council, an order of the Commissioners shall be final and shall not be questioned in or restrained by any Court.

41. Except as provided in this Act, no suit shall be instituted or proceeding taken for anything done or any omission made by a railway administration in violation or contravention of any provision of this Chapter or of any order made thereunder by the Commissioners or by a High Court.

*Traffic Facilities.*

42. (1) Every railway administration shall, according to its powers, afford all reasonable facilities for the receiving, forwarding and delivering of traffic upon and from the several railways belonging to or worked by it and for the return of rolling-stock.

(2) A railway administration shall not make or give any undue or unreasonable preference or advantage to or in favour of any particular person or railway administration, or any particular description of traffic, in any respect whatsoever, or subject any particular person or railway administration or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

(3) A railway administration having or working railways which form part of a continuous line of railway communication, or having its terminus or station within one mile of the terminus or station of another railway administration, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways all the traffic arriving by the other at such terminus or station, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways as a continuous line of communication, and so that all reasonable accommodation may by means of such railways be at all times afforded to the public in that behalf.

*The Indian Railways Act, 1890.**(Chapter V.—Railway Commissions and Traffic Facilities.—Sections 42-44.)*

(4) The facilities to be afforded under this section shall include the due and reasonable receiving, forwarding and delivering by every railway administration, at the request of any other railway administration, of through traffic to and from the railway of any other railway administration at through rates :

Provided as follows :—

- (a) the railway administration requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding railway administration, stating both its amount and its apportionment and the route by which the traffic is proposed to be forwarded. The proposed through rate for animals or goods may be per truck or per maund ;
- (b) each forwarding railway administration shall, within the prescribed period after the receipt of such notice, by written notice inform the railway administration requiring the traffic to be forwarded whether it agrees to the rate, apportionment and route, and, if it has any objection, what the grounds of the objection are ;
- (c) if at the expiration of the prescribed period no such objection has been sent by any forwarding railway administration, the rate shall come into operation at the expiration of that period ;
- (d) if an objection to the rate, apportionment or route has been sent within the prescribed period, the Governor General in Council may, if he thinks fit, on the request of any of the railway administrations, refer the case to the Commissioners for their decision ;
- (e) if the objection is to the granting of the rate or to the route, the Commissioners shall consider whether the granting of the rate is a due and reasonable facility in the interests of the public, and whether, regard being had to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly or fix such other rate as may seem to the Commissioners to be just and reasonable :
- (f) if the objection is only to the apportionment of the rate, and the case has been referred to the Commissioners, the rate shall come into operation at the expiration of the prescribed period, but the decision of the Commissioners as to its apportionment shall be retrospective : in the case of any other objection the operation of the rate shall be suspended until the Commissioners make their order in the case ;

(g) the Commissioners in apportioning the through rate shall take into consideration all the circumstances of the case, including any special expense incurred in respect of the construction, maintenance or working of the route or any part of the route, as well as any special charges which any railway administration is entitled to make in respect thereof ;

(h) the Commissioners shall not in any case compel any railway administration to accept lower mileage rates than the mileage rates which the administration may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points, being the points of departure and arrival of the through route ;

(i) subject to the foregoing provisions of this sub-section, the Commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding railway administration out of the through rate than the maximum rate which the railway administration is entitled to charge, and to allow and apportion the through rate accordingly ;

(j) the prescribed period mentioned in this sub-section shall be one month, or such longer period as the Governor General in Council may by general or special order prescribe.

43. (1) Whenever it is shown that a railway administration charges one trader or class of traders or the traders in any local area lower rates for the same or similar animals or goods,

Undue preference in case of unequal rates for like traffic or services.

or lower rates for the same or similar services, than it charges to other traders or classes of traders, or to the traders in another local area, the burden of proving that such lower charge does not amount to an undue preference shall lie on the railway administration.

(2) In deciding whether a lower charge does or does not amount to an undue preference, the Commissioners may, so far as they think reasonable, in addition to any other considerations affecting the case, take into consideration whether such lower charge is necessary for the purpose of securing, in the interests of the public, the traffic in respect of which it is made.

44. Where a railway administration is a party to an agreement for procuring the traffic of the railway to be carried on any inland water by any ferry, ship, boat or raft

Provision for facilities and equal treatment where ships or boats are used which are not part of a railway.

which does not belong to or is not hired or worked by the railway administration, the provisions of the two last foregoing sections applicable to a railway shall extend to the ferry, ship, boat or raft in so far as it is used for the purposes of the traffic of the railway.

45. A railway administration may charge reasonable terminals.

46. (1) The Governor General in Council may, if he thinks fit, refer to the Commissioners for decision any question or dispute which may arise with respect to the terminals charged by a railway administration, and the Commissioners may thereupon decide what is a reasonable sum to be paid to the railway administration in respect of terminals.

(2) In deciding the question or dispute the Commissioners shall have regard only to the expenditure reasonably necessary to provide the accommodation in respect of which the terminals are charged, irrespective of the outlay which may have been actually incurred by the railway administration in providing that accommodation.

## CHAPTER VI.

## WORKING OF RAILWAYS.

*General.*

47. (1) Every railway company and, in the case of a railway administered by the Government, an officer to be appointed by the Governor General in Council in this behalf, shall make general rules consistent with this Act for the following purposes, namely:—

- (a) for regulating the mode in which, and the speed at which, rolling-stock used on the railway is to be moved or propelled;
- (b) for providing for the accommodation and convenience of passengers and regulating the carriage of their luggage;
- (c) for declaring what shall be deemed to be, for the purposes of this Act, dangerous or offensive goods, and for regulating the carriage of such goods;
- (d) for regulating the conditions on which the railway administration will carry passengers suffering from infectious or contagious disorders, and providing for the disinfection of carriages which have been used by such passengers;
- (e) for regulating the conduct of the railway servants;
- (f) for regulating the terms and conditions on which the railway administration will

warehouse or retain goods at any station on behalf of the consignee or owner; and,

(g) generally, for regulating the travelling upon, and the use, working and management of, the railway.

(2) The rules may provide that any person committing a breach of any of them shall be punished with fine which may extend to any sum not exceeding fifty rupees, and that, in the case of a rule made under clause (e) of sub-section (1), the railway servant shall forfeit a sum not exceeding one month's pay, which sum may be deducted by the railway administration from his pay.

(3) A rule made under this section shall not take effect until it has received the sanction of the Governor General in Council and been published in the Gazette of India:

Provided that, where the rule is in the terms of a rule which has already been published at length in the Gazette of India, a notification in that Gazette referring to the rule already published and announcing the adoption thereof shall be deemed a publication of a rule in the Gazette of India within the meaning of this sub-section.

(4) The Governor General in Council may cancel any rule made under this section, and the authority required by sub-section (1) to make rules thereunder may at any time, with the previous sanction of the Governor General in Council, rescind or vary any such rule.

(5) Every rule purporting to have been made for any railway under section 8 of the Indian Railway Act, 1879, and appearing from the IV Gazette of India to be intended to apply to the railway at the commencement of this Act, shall, notwithstanding any irregularity in the making or publication of the rule, be deemed to have been made and to have taken effect under this section.

(6) Every railway administration shall keep at each station on its railway a copy of the general rules for the time being in force under this section on the railway, and shall allow any person to inspect it free of charge at all reasonable times.

48. Where two or more railway administrations whose railways have a common terminus or a portion of the same line of rails in common, or form separate portions of one continued line of railway communication, are not able to agree upon arrangements for conducting at such common terminus, or at the point of junction between them, their joint traffic with safety to the public, the Governor General in Council, upon the application of either or any of the administrations, may decide the matters in dispute between them, so far as those matters relate to the safety of the public, and may determine whether the

*The Indian Railways Act, 1890.**(Chapter VI.—Working of Railways.—Sections 49-53.)*

whole or what proportion of the expenses attending on such arrangements shall be borne by either or any of the administrations respectively.

**49.** Any railway company, not being a company for which the Statute 42 and 43 Victoria, chapter 41, provides, may from time to time make and carry into effect agreements with the Governor General in Council for the construction of rolling-stock, plant or machinery used on, or in connection with, railways, or for leasing or taking on lease any rolling-stock, plant, machinery or equipments required for use on a railway, or for the maintenance of rolling-stock.

**50.** Any railway company, not being a company for which the Statute 42 and 43 Victoria, chapter 41, provides, may from time to time make with the Governor General in Council, and carry into effect, or, with the sanction of the Governor General in Council, make with any other railway administration, and carry into effect, any agreement with respect to any of the following purposes, namely :—

- (a) the working, use, management and maintenance of any railway ;
- (b) the supply of rolling-stock and machinery necessary for any of the purposes mentioned in clause (a) and of officers and servants for the conduct of the traffic of the railway ;
- (c) the payments to be made and the conditions to be performed with respect to such working, use, management and maintenance ;
- (d) the interchange, accommodation and conveyance of traffic being on, coming from or intended for the respective railways of the contracting parties, and the fixing, collecting, apportionment and appropriation of the revenues arising from that traffic ;
- (e) generally, the giving effect to any such provisions or stipulations with respect to any of the purposes hereinbefore in this section mentioned as the contracting parties may think fit and mutually agree on :

Provided that the agreement shall not affect any of the rates which the railway administrations parties thereto are from time to time respectively authorised to demand and receive from any person, and that every person shall, notwithstanding the agreement, be entitled to the use and benefit of the railways of any railway administrations, parties to the agreement, on the same terms and conditions, and on payment

of the same rates, as he would be if the agreement had not been entered into.

**51.** Any railway company, not being a company for which the Statute 42 and 43 Victoria, chapter 41, provides, may from time to time exercise with the sanction of the Governor General in Council all or any of the following powers, namely :—

- (a) it may establish, for the accommodation of the traffic of its railway, any ferry equipped with machinery and plant of good quality and adequate in quantity to work the ferry ;
- (b) it may work for purposes other than the accommodation of the traffic of the railway any ferry established by it under this section ;
- (c) it may provide and maintain on any of its bridges roadways for foot-passengers, cattle, carriages, carts or other traffic ;
- (d) it may construct and maintain roads for the accommodation of traffic passing to or from its railway ;
- (e) it may provide and maintain any means of transport which may be required for the reasonable convenience of passengers, animals or goods carried or to be carried on its railway ;
- (f) it may charge tolls on the traffic using such ferries, roadways, roads or means of transport as it may provide under this section, according to tariffs to be arranged from time to time with the sanction of the Governor General in Council.

**52.** Every railway administration shall, in forms to be prescribed by the Governor General in Council, prepare, half-yearly or at such intervals as the Governor General in Council may prescribe, such returns of its capital and revenue transactions and of its traffic as the Governor General in Council may require, and shall forward a copy of such returns to the Governor General in Council at such times as he may direct.

*Carriage of Property.*

**53. (1)** Every railway administration shall determine the maximum load for every wagon or truck in its possession, and shall exhibit the words or figures representing the load so determined in a conspicuous manner on the outside of every such wagon or truck.

(2) Every person owning a wagon or truck which passes over a railway shall similarly determine and exhibit the maximum load for the wagon or truck.

*The Indian Railways Act, 1890.**(Chapter VI.—Working of Railways.—Sections 54-58.)*

(3) The gross weight of any such wagon or truck bearing on the axles when the wagon or truck is loaded to such maximum load shall not exceed such limits as may be fixed by the Governor General in Council for the class of axle under the wagon or truck.

54. (1) Subject to the control of the Governor General in Council, a railway administration may impose conditions, not inconsistent with this Act or with any general rule thereunder, with respect to the receiving, forwarding or delivering of any animals or goods.

(2) The railway administration shall keep at each station on its railway a copy of the conditions for the time being in force under sub-section (1) at the station, and shall allow any person to inspect it free of charge at all reasonable times.

(3) A railway administration shall not be bound to carry any animal suffering from any infectious or contagious disorder.

55. (1) If a person fails to pay on demand any rate, terminal or other charge due from him in respect of any animals or goods, the railway administration may detain the whole or any of the animals or goods, or, if they have been removed from the railway, any other animals or goods of such person then being in or thereafter coming into its possession.

(2) When any animals or goods have been detained under sub-section (1), the railway administration may sell by public auction, in the case of perishable goods at once, and in the case of other goods or of animals on the expiration of at least fifteen days' notice of the intended auction, published in one or more of the local newspapers or, where there are no such newspapers, in such manner as the Governor General in Council may prescribe, sufficient of such animals or goods to produce a sum equal to the charge and all expenses of such detention, notice and sale, including, in the case of animals, the expenses of the feeding, watering and tending thereof.

(3) Out of the proceeds of the sale the railway administration may retain a sum equal to the charge and the expenses aforesaid, rendering the surplus, if any, of the proceeds, and such of the animals or goods (if any) as remain unsold, to the person entitled thereto.

(4) If a person on whom a demand for any rate, terminal or other charge due from him has been made fails to remove from the railway within a reasonable time any animals or goods which have been detained under sub-section (1), or any animals or goods which have remained unsold after a sale under sub-section (2), the railway administration may sell the whole of them and dispose of the proceeds of the sale as nearly as may be under the provisions of sub-section (3).

(5) Notwithstanding anything in the foregoing sub-sections, the railway administration may recover by suit any such rate, terminal or other charge as aforesaid or balance thereof.

56. (1) When any animals or goods have come into the possession of a railway administration for carriage or otherwise and are not claimed by the owner or other person appearing to the railway administration to be entitled thereto, the railway administration shall, if such owner or person is known, cause a notice to be served upon him requiring him to remove the animals or goods.

(2) If such owner or person is not known, or the notice cannot be served upon him, or he does not comply with the requisition in the notice, the railway administration may within a reasonable time, subject to the provisions of any other enactment for the time being in force, sell the animals or goods as nearly as may be under the provisions of the last foregoing section, rendering the surplus, if any, of the proceeds of the sale to any person entitled thereto.

57. Where any animals, goods or sale-proceeds in the possession of a railway administration are claimed by two or more persons or the ticket or receipt given for the animals or goods is not forthcoming, the railway administration may withhold delivery of the animals, goods or sale-proceeds until the person entitled in its opinion to receive them has given an indemnity, to the satisfaction of the railway administration, against the claims of any other person with respect to the animals, goods or sale-proceeds.

58. (1) The owner or person having charge of any goods which are brought upon a railway for the purpose of being carried thereon, and the consignee of any goods which have been carried on a railway, shall, on the request of any railway servant appointed in this behalf by the railway administration, deliver to such servant an account in writing signed by such owner or person, or by such consignee, as the case may be, and containing such a description of the goods as may be sufficient to determine the rate which the railway administration is entitled to charge in respect thereof.

(2) If such owner, person or consignee refuses or neglects to give such an account, and refuses to open the parcel or package containing the goods in order that their description may be ascertained, the railway administration may, (a) in respect of goods which have been brought for the purpose of being carried on the railway, refuse to carry the goods unless in respect thereof a rate is paid not exceeding the

*The Indian Railways Act, 1890.**(Chapter VI.—Working of Railways.—Sections 59-62.)*

highest rate which may be in force at the time on the railway for any class of goods or, (b) in respect of goods which have been carried on the railway, charge a rate not exceeding such highest rate.

I. In No. 2 of the Second Schedule to the Indian Tariff Act, 1882, as amended by Act II of 1887 (*an Act to amend the Sea Customs Act, 1878, the Excise Act, 1881, and the Indian Tariff Act, 1882*)—

there shall be substituted the following, namely :—

No.	Name of Articles.	Per.	Tariff Valuation.	Rate of Duty.
*	*	*	*	*
	Spirit when so used in a proportion of twenty per cent. and upwards.	Imperial Gallon or six quart bottles of the strength of London proof.	...	R6, and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.
	Spirit, perfumed, in wood or in bottles.	Imperial Gallon or six quart bottles.	...	R8.
	Spirit, other sorts.	Imperial Gallon or six quart bottles of the strength of London proof.	...	R6, and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.

S. HARVEY JAMES,  
Secretary to the Government of India.

---

### STATEMENT OF OBJECTS AND REASONS.

---

THE present rate of duty on imported spirit is ₹5 a gallon of the strength of London proof. It is proposed in the present Bill to raise the rate of duty to ₹6 a gallon. In some Provinces the rates of duty on country spirit have been raised so high that, if any further increase is made, such spirit will be unfairly handicapped in comparison with imported spirit paying a duty of ₹5 a gallon. It is the policy of the Government of India to impose as high a duty on country spirit as it will bear; and it has therefore become necessary to raise the duty on imported spirit, in order to permit of the duty being raised on country spirit. It is also considered desirable to discourage the import of cheap and deleterious European spirit; while imported spirit of a better class can, it is believed, bear a higher rate of duty without rendering the price of it prohibitive to the classes which use it.

It is necessary to raise the rate of duty on perfumed spirit from ₹7-8 a gallon to ₹8 when the duty on ordinary spirit is raised as above proposed.

It is estimated that the proposed increase of duty will add nine lakhs of rupees yearly to the public revenue.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last year. The humidity of the atmosphere is expressed in percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fall.

for the week ending Friday, the 21st of March 1890.

CALCUTTA, the 25th March 1890.

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 21st OF MARCH 1890.

THE period of unsettled weather, which included the greater part of the preceding week, continued during the present one, the thunderstorms accompanied by showers being most frequent in the early part of the week in the southern districts. The disturbed conditions gradually passed eastwards, and while scattered storms with light rain occurred in most of the districts, frequent showers were reported from East Bengal only during the last few days. At first there was generally low pressure, which became intensified in North Bengal in the middle of the week, and though rather large changes were reported, defect continued with a tendency to increase towards the end.

On the 15th, the first day of the week, there was a rather diffused low-pressure area overlying the greater part of Bengal, and deepening towards the foot of the hills. Strong winds, generally southerly in direction, were blowing in the north-west corner of the Bay and at most of the inland stations, while temperature changes, as well as the distribution relative to the normal, were somewhat irregular. On the 16th the fall of pressure, which had been going on for some days, ceased and was followed by a general rise, very rapid in North Bengal but diminishing towards the south, till in South Bengal it was only two or three-hundredths of an inch. The centre of the diffused low-pressure area was then near Bhagulpore, and the wind circulation tended towards that point, being southerly in the lower districts, east in North Bengal, and from south-west to north-west in Behar. The difference from normal pressure was very uniform, exceeding a tenth of an inch in South Bengal and along the west coast of the Bay, while it was very little less over the rest of the province. During these two days thunderstorms were numerous in Orissa and East Bengal, accompanied by heavy showers in the former, but as a rule giving only light falls in the latter. From the 16th rain almost entirely ceased in Orissa, there being only a few scattered showers in the Balasore district during the remainder of the week. On the 17th pressure again began to fall very rapidly in Chutia Nagpur, Behar, and the northern half of South-West Bengal. The depression was more distinct, having its centre still near Bhagulpore with a similar wind circulation, except that the velocity, which had begun to fall off on the previous day, again increased. Temperature was rising and was from one to three degrees in excess. The only rainfall on this day was in East Bengal, where, however, it was more heavy and general than before. On the 18th pressure increased about a twentieth of an inch in the centre of the province, the depression partially filling up, but wind directions remained unchanged. Temperature changed irregularly, falling in North Bengal and Behar, and rising four to five degrees in East Bengal, where there were again light showers of rain. On the 20th there was a similar increase of pressure preceded by small irregular changes on the 19th and followed by a rapid fall on the 21st. During these three days defect in pressure generally ranged from a twentieth to a tenth of an inch, and the indraught towards the centre of the province continued. Rain showers were very light and scattered except on Thursday, the 20th, in South-West and East Bengal. Temperature continued to rise, and by the end of the week was from two to five degrees in excess of the normal.

*Pressure*—Has been subject to large and frequent changes, but has been considerably below the normal throughout the whole week. The largest defect was slightly over a tenth of an inch in South-West Bengal, and the lowest eight-hundredths of an inch in part of South-West and East Bengal.

*Temperature*—Has been generally rising, and the means at the different stations are all in excess by amounts ranging up to four degrees. The excess in the means for North Bengal and South Behar is over 2° and for the other districts over 1° excepting Orissa, where it is 0.6°. The highest observed during the week was 98.4° in South Behar, and the lowest 54.9° in North Behar.

The actual temperatures during the week, the range from day to night, and their variation from the normals, are seen in the following table, where the average maximum, minimum and mean temperatures at nine typical stations in different districts in the province are given together with their normal values:—

**Rainfall.**—As stated above, almost all the rain that has fallen during the week has been in Orissa and East Bengal: in the former during the first two days, but continuing in the latter till the end, the only day when frequent showers were not received there being Wednesday. The days when showers were most numerous in East Bengal were Tuesday and Thursday, but the falls were generally under half an inch, though some reported more than an inch and-a-half. The averages for Orissa, East Bengal, and North Bengal are above the normal, East Bengal having received 1·6 inches, nearly three times the normal amount for the week, Orissa 0·95 inch, and North Bengal 0·27 inch. In the other districts the falls have been very scanty, under a tenth of an inch in all, while in North Behar no rain whatever has fallen.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 21st of March 1890:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

## NOTIFICATION.

The 31st March 1890.—The following report of the Bruce Institution for the year 1889 is published for general information.

P. NOLAN,

Secretary to the Govt. of Bengal.

## THE BRUCE INSTITUTION.

I. *Control*.—During the year under review the Revd. James Lillie was appointed under rule 10 to be a Governor, *vice* the Revd. G. W. Manson, resigned. Sir Alfred Croft proceeded to Europe on three months' leave, and in his absence Mr. C. H. Tawney, C.I.E., Officiating Director of Public Instruction, officiated as Honorary Secretary to the Governors. At the close of the year the following members, nominated by the Hon'ble High Court, retired from the governing body by effluxion of time under rule 8:—

The Hon'ble Mr. Justice Beverley.

Very Revd. E. Lafont, S.J., C.I.E.

Mr. W. H. Ryland.

Revd. R. Robinson.

The first three gentlemen have been re-appointed by the Government of Bengal for a further term of three years. Mr. Robinson, who expressed a desire to withdraw from the governing body, has been succeeded by the Revd. F. W. Warnock.

II. *Capital and Income*.—The capital of the Institution has been increased, by the further investment of Rs. 7,500, to Rs. 6,67,500. The amount is held by the Comptroller General in stock notes, yielding an annual net interest of Rs. 26,620.

III. *Election*.—The annual election was held in the month of August. For the fourteen vacancies advertised ninety-four applications were received. The election of fourteen children as foundationers was, as usual, made by the Governors on the report of a Sub-Committee. One foundationer was, on the application of her mother, transferred from the Calcutta Free School, where she had been for the past two years, to the Loretto Convent School, Entally; one in the Calcutta Girls' School was withdrawn from the foundation, as it was ascertained that her mother's income was sufficient to enable her to educate her child without help; and two more, one in the Loretto Convent School, Entally, and the other in the Pratt Memorial School, were withdrawn by their guardians.

At the close of the year there were 97 girls on the foundation, distributed among the various schools as follows:—

Loretto Convent School, Entally	...	...	...	48
Calcutta Free School	...	...	...	21
St. Paul's Mission School	...	...	...	2
Pratt Memorial School	...	...	...	12

The following table gives particulars of the class and religion of the girls on the foundation:—

II.—Fatherless, or deserted by their father, or father incapable.	27	26	6	59
III.—Cases of extreme poverty	2	1	1	4
Total	50	40	7	97

IV. *Education and Maintenance*.—The average monthly cost of the education and maintenance of each girl on the foundation amounted to Rs. 15-6-7, or 12 annas 5 pies less than in the preceding year. The total amount paid under the head of "Education and Maintenance" was Rs. 17,940, or Rs. 2,418 above that of the previous year.

V. *Inspection*.—The Ven'ble Archdeacon F. R. Michell and the Revd. R. Robinson were appointed visiting Governors for the year. Their reports were uniformly satisfactory. Good accounts have also been generally received from the school authorities with regard to the conduct, application and attendance of the foundationers.

The Revd. R. Robinson, in his report, states that he was particularly pleased with the Loretto Convent School at Entally, where order, tidiness and cleanliness mark all the appointments, and where the children are systematically trained to help themselves in respect of most of those domestic arrangements which elsewhere necessitate the employment of servants. He adds that these remarks also apply to the Calcutta Free School.

VI. *Meetings.*—Five meetings were held during the year, and among the matters discussed the following may be noted:—

1. Recognition of St Joseph's Convent School at Cuttack as suitable for the education and maintenance of Bruce foundationers under rule 39 of the scheme.

2. The selection of cheaper schools for the education and maintenance of Bruce foundationers.

### REVENUE DEPARTMENT.

#### A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraph of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 659 royal pages; Volume II embraces the letter C in 640 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 3 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half-morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 5 guineas in England, exclusive of packing and postage.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

**Explanation.—Summary.**—The normal means of air pressure and temperature are the arithmetical average or means of the readings during the same period for the last five years. The humidity of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and a cloudy sky by 10. The number of rainy days in the district is denoted by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 28th of March 1890.

CALCUTTA, the 1st April 1890.

### SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 28TH OF MARCH 1890.

THE meteorology of the present week has been chiefly noteworthy for the very dry weather which has prevailed over the whole province, and consequently the high and steadily increasing temperature. The low-pressure area, which has been over Bengal for some time, has still continued, there being a uniform large defect, not so pronounced as in the previous week, but at a large majority of stations averaging a tenth of an inch, while at some it was considerably more, and only in the western parts sensibly under a tenth of an inch.

On Saturday, the 22nd, the first day of the week, pressure fell rapidly in North Bengal and slowly elsewhere, the lowest pressure being near Dinagapur. Wind directions were generally from south to west, but velocity was nowhere above the average. Very high temperature prevailed over a large area in the centre of the province, including a large part of South-West and East Bengal, the eastern half of Behar, and as far north as Purneah. The largest amounts in excess of the normal were over  $6^{\circ}$  at Bhagulpur, Dinagapur, and Maldah, but all round the boundary there was either normal temperature or very slight excess. There had been a rapid rise during the previous twenty-four hours in North Bengal, and a rapid fall in the west of Behar. Pressure fell on the 23rd and rose on the 24th by about equal amounts, so that by the end of the latter day the distribution was similar to that of the 22nd. The wind circulation remained unchanged, while temperature changed irregularly, but continued high. With the exception of a very few light showers in Orissa and East Bengal at the beginning of the week, these three days had been rainless. On the 25th pressure again fell with moderate rapidity, but after that a steady rise set in and lasted till the end of the week. Only one or two stations in East Bengal reported light showers on the 26th, but elsewhere no rain fell. Temperature fell slowly on the last two days, but there was still a large excess.

**Pressure**—As stated above, has been uniformly very low, especially over an area extending from the centre of the province northwards over North Bengal. The largest defects have been in Purneah and Julpigoree, averaging for the week in these districts nearly  $0.15$  inch. In East Bengal defect has generally been over a tenth of an inch, and in the other districts very little under a tenth except in Chutia Nagpur, where it has been about seven-hundredths of an inch.

**Temperature**—As shown in the table below, has been largely in excess during both day and night. At Cuttaek, Burdwan, and Darjeeling maximum temperature has been from  $3.5^{\circ}$  to  $4.5^{\circ}$  above the normal, and at all the representative stations given in the table the minimum temperature has been from  $1^{\circ}$  to  $4^{\circ}$  above. The only station where there has been defect during the day is Gya, but there the relatively highest night temperatures have been reported.

Excess in the means for the large divisions ranges from  $1.2^{\circ}$  to  $3.6^{\circ}$ , South-West, East and North Bengal and South Behar all being over  $3^{\circ}$ , and the others under  $2^{\circ}$ .

The actual temperatures during the week the range from day to night, and their variation from the normals, are seen in the following table, where the average maximum, minimum and mean temperatures at nine typical stations in different districts in the province are given together with their normal values :—

**Rainfall**—Has been very scanty, four of the divisions, viz, South-West Bengal, Behar and Chutia Nagpur being entirely rainless, while in Orissa only the fall has exceeded a tenth of an inch. The few showers reported fell during the first two days of the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 28th of March 1890 :—

## MEMORANDUM.

THE deaths registered during the month of January 1890 in 45 districts in Bengal were 124,642, or at the rate of 22·68 per 1,000 among a population of 65,859,534, in opposition to 184,528, or 33·60 per 1,000 in the preceding month, 125,953, or 22·92 per 1,000 in January 1889, and an average of 128,224, or 23·28 per 1,000 in the corresponding month of past five years 1885-89. In comparison with the preceding month (December) there was a large decrease of mortality, amounting to 10·92 per 1,000, but in contrast with the mortality of January 1889 and the average of the corresponding month of the past five years 1885-89 there was a deduction of ·21 and ·60 per 1,000 respectively.

2. The following districts returned the highest proportions of deaths. For comparison the mortality in the same districts during the corresponding month of 1889 is also shown:—

Districts.	Ratio per mille during—		Districts.	Ratio per mille during—

3. The following table compares the mortality of January 1890 from the undermentioned registered death-causes with that of the corresponding month of the previous year, and the average rate of the corresponding months of the past five years 1885-89:—

	Ratio per mille during—		
	January 1890.	January 1889.	Mean of previous five years, 1885-89.

Bowel-complaints ...	·72	·72	·84
Injury ...	·12	·12	·12
Other causes ...	3·48	3·84	3·36

It will be seen that the death-rate of January 1890, under the head cholera, is twice as great as that of January 1889, but only a little higher than the average rate of the five years 1885-89. Under the head fever, there was a noticeable reduction in January 1890 as compared with the average rate of the past five years. The mortality under the other heads was pretty much the same as in corresponding past periods.

4. The following table shows the districts in which the death-rates from cholera, fever and the maladies coming under the head "Other causes" were highest:—

5. All corrections and alterations in accounts shall be neatly made in red ink and attested by the initials of the Chairman. All corrections and alterations in a voucher shall be attested by the payee. Erasures shall on no account be permitted in registers, statements, vouchers or accounts of any description.

6. No expenditure shall be incurred for which provision has not been made in the budget estimate for the year, or in a supplementary budget estimate, or which has not been duly sanctioned by the District Board, or by the Chairman or other executive officer of the Board acting in the exercise of the powers conferred on him by the Act or the rules made under the Act.

7. The Chairman shall cause to be kept a register of establishment in Form No. I showing in respect of all establishments whatsoever employed by the District Board the particulars specified in the form. A separate page or section shall be allotted to each class of establishment. All changes made by competent authority from time to time in the numbers, nomenclature, or salaries of the establishment shall be immediately entered in the register, with the number and date of the orders authorising the change. This register is not intended to show officiating appointments, and no entries relating to these should therefore be made.

8. Every employé of the District Board shall be required to keep a service-book in the form prescribed for uncovenanted servants of Government, and all entries made therein shall be renewed or attested by the Chairman at least once every five years.

9. The Chairman shall promptly report to the Accountant-General, Bengal, and the Commissioner of the Division, through the Magistrate of the District, if he is not the Chairman, the occurrence of any embezzlement or irregularity in the accounts of the District Board which may come to his notice, and shall observe the rules and procedure prescribed for reporting embezzlements and irregularities occurring in Government offices.

## BUDGET ESTIMATES.

10. The Collector of the district shall, on or before the 1st September in each year, prepare and transmit to the District Board an estimate of the balance of the District Road Fund to be transferred to the credit of the District Fund during the financial year next ensuing under section 52, clause (1) of the Act.

11. A budget estimate in Form No. II showing the probable receipts and expenditure of the District Fund under all heads during the ensuing financial year shall be prepared by the Finance Committee constituted under section 55 of the Act, and shall be laid before the District Board at a meeting to be held not later than the 1st October in each year.

12. The budget estimate shall set forth estimated receipts and expenditure under major and minor heads, of account only; and shall be accompanied by a schedule in Form No. III for each major head, in which shall be entered full details of the estimated receipts and expenditure under that head, working up to the totals shown under that head in the budget estimate.

13. The budget estimate and schedules shall show (1) the actual receipts and expenditure for the latest year for which the accounts have been closed; (2) the sanctioned estimate, the revised estimate, and six months' actuals for the year then current; and (3) the probable receipts and expenditure for the ensuing financial year.

14. In entering the details of receipts and expenditure in the schedule for each major head, the same forms and the same degree of particularity shall be observed as are prescribed for District Budget estimate under the orders of Government, the Accountant-General, Bengal, or other competent authority. In preparing the schedule for Public Works under the control and administration of the District Board, the rules and forms prescribed for the budget estimates of District Road Committees under the Cess Act IX (B.C.) of 1880 shall be observed.

15. The budget estimate and schedules shall be accompanied by explanatory notes, explaining any new and important item of receipt or expenditure, and when any new charge requires the sanction of superior authority, by a copy of the order of sanction.

16. The District Board shall never, except with the previous sanction of the Lieutenant-Governor exhaust or exceed its balance in the treasury; and the budget estimates shall be framed so as to provide for an adequate working balance throughout the year, and for an adequate closing balance. The Commissioner shall decide what constitutes an adequate working and closing balance, and his decision shall be final.

17. No change shall be made in the major or minor account headings prescribed by Government, and the same account headings shall be used in all accounts and returns prepared or submitted by the District Board.

The minor heads of account may be sub-divided in the Cash Abstract registers as may be found convenient, but all statements and returns shall be compiled by totals of minor heads.

18. In preparing the budget estimate, attention shall be given to the following points:—

- (a) What is expected to be paid (under proper sanction) during the year shall be provided for, not the liability falling due within the year.
- (b) For fixed charges the detailed estimate shall show the full amount of the sanctioned scale; when it is found by experience that a saving will arise from any cause, a lump deduction may be made.
- (c) The number of employes shall be carefully stated in the detailed estimates and checked; the rate of pay shall be stated, wherever possible, in order to admit of verification of the column of charge.

19. The District Board may at any time, with the previous sanction of the Commissioner, transfer grants from one major head of account to another, and from one minor head to another minor head subordinate to the same major head; provided that the total budget grant is not thereby exceeded.

20. If at any time during the year the District Board has reason to believe that the budget under any head is likely to be exceeded, and that the excess cannot be met by a reduction under some other head, a supplementary budget estimate shall be prepared with the least possible delay, and submitted through the Magistrate for the orders of the Commissioner in the manner prescribed in sections 47 to 49 of the Act.

If the Board has reason to suppose the receipts under any head are likely to fall materially short of the budget estimate, a revised budget estimate shall be prepared with the least possible delay, and submitted as above for the orders of the Commissioner.

#### TRANSACTIONS WITH THE TREASURY.

21. The District Fund shall be lodged with the Collector of the district, who shall keep a separate account thereof.

22. The District Board shall not appropriate towards expenditure any moneys received by its servants; but all such moneys shall be remitted by the Board's servants direct to the treasury at once, and shall not be paid in through the medium of the District Board's office.

23. All money paid into the treasury to the credit of the District Fund, whether by servants of the District Board or others, shall be accompanied by a challan in Form No. IV. This challan shall be in triplicate, having the words "Original," "Duplicate" and "Triplicate" printed or written in red on the first, second and third parts respectively. The first part shall be retained by the treasury office, the second part shall be sent to the office of the District Board whenever the pass-book is returned, and the third part shall be delivered to the person paying in the money.

24. All moneys remitted to the treasury to credit of the District Board, and all payments made by the treasury on cheques or otherwise on account of the District Board shall be entered in a pass-book; the pass-book shall remain in the custody of the Chairman, and it shall be sent to the treasury with every remittance, and also on the last working day of every month. On receipt of the pass-book by the treasury officials, the entry of the remittance made (if any) shall be initialled by the treasury officer, and then the charged side shall be written up to date, and the book returned at once to the office of the District Board.

The pass-book will be supplied by the treasury. It is not a District Fund account book, but is simply a copy of the account kept in the treasury of the money paid in to the credit of, and disbursed on account of, the District Board, and must therefore always be written up *only by the Government Treasury Department*, by whom the original account is kept.

25. No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with the District Board's office.

26. At the close of each month the balance in the pass-book shall be struck, the amount written in words, and signed by the Treasury Officer.

27. The Chairman shall examine the pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass-book, and those shown in the accounts of the District Board's office.

28. When a grant is made to the District Fund from Provincial revenues, either as a general grant-in-aid, or for expenditure on any specific object, the Chairman shall apply to the Treasury Officer to credit the amount of the grant to the District Fund, forwarding a copy of the orders of Government sanctioning the same; and the Treasury Officer shall, on receipt of instructions from the Accountant-General, place the amount of the grant to credit of the District Fund. The credit shall be made by book transfer; no bill or cheque shall be drawn, and no money shall be paid out of the treasury.

29. On the last working day of each month, the balance of the road cess collections of the month, after deducting from the amount received on account of "cess on land" the

charges for collections, shall be transferred to credit of the District Fund, and entered in the pass-book in the following details :—

	Rs.	A.	P.	Rs.	A.	P.
Total Road Cess on lands ...						
Deduct charges for collections, &c., incurred during the month, less the proportion of the charges payable by Government for Public Works cess ...						
Cess on mines and railways ...						
Interest on arrear collections of Road Cess ...						
Total ...						

30. The Treasury Officer shall supply the Chairman, immediately after the close of each month, with a balance certificate in the following form :—

<i>Abstract of District Fund Account for the month of</i>				<i>in the Treasury of</i>			
	Rs.	A.	P.		Rs.	A.	P.
1. Balance brought forward from last month ..				4. Debited in cash account of this month ...

3. Other credits, as per Accountant-General's No. , dated ...				6. Balance at end of month ...			
GRAND TOTAL ...				GRAND TOTAL ...			

#### PAYMENT OF CLAIMS.

31. For the payment of petty charges, the Chairman shall hold a permanent advance of such amount as the District Board may fix from time to time; provided that without the sanction of the Commissioner, the District Board shall not fix the amount of the permanent advance at more than Rs. 100.

32. The permanent advance shall be recouped as often as may be necessary, and in the manner prescribed for the recoupment of the permanent advance of the District Magistrate and Collector; provided that the cash for the recoupment of the permanent advance shall be drawn from the treasury by cheque.

33. Payments of not more than Rs. 20 shall be made from the permanent advance; provided that no charge on account of the salary of any employé of the District Board shall be made otherwise than as prescribed in Rules 34 and 38.

34. All payments exceeding Rs. 20 shall be made by cheque, unless there are special circumstances rendering payments in cash desirable; provided that all payments of sums above Rs. 10 on account of salaries of employés of the District Board shall be made by cheque.

35. Cheque-books will be supplied by the Treasury Officer only, and no other form shall be used. Cheque-books and the counterfoils of used cheques shall be kept in the custody of the Chairman.

36. Cheques for sums not exceeding Rs. 100 shall be signed by the Vice-Chairman, or, in his absence, by the Chairman, or, if both be absent, by a member of the Finance Committee. Cheques for sums exceeding Rs. 100 shall be signed both by the Chairman and the Vice-Chairman. If the Chairman or Vice-Chairman is absent or is from any cause incapacitated from signing the cheque, it shall be signed by a member of the Finance Committee for the Chairman or Vice-Chairman as the case may be.

37. No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid.

38. Every cheque shall be drawn in English in favour of the person to whom the money is actually due. Payment shall not be made to any other person except on production of a written authority from the creditor to receive it on his behalf. This rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of District Fund employés, or for recouping the permanent advance, or for payment to a postmaster for a money-order or money-orders issued for payment of stipends or rewards to gurus.

39. The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque. The word "only" shall always be inserted after the amount written in words in the body of the cheque.

40. Every cheque drawn for a sum in excess of Rs. 20 shall bear a receipt stamp of the value of one anna, and such receipt stamp shall be affixed before the cheque is signed.

41. When a signed cheque is cancelled, it shall be stamped "cancelled" by the Chairman. The cancelled cheque shall be destroyed as soon as the accounts for the month in

which the cheque was drawn have been audited. The amount of the cancelled cheque shall be entered as a receipt on the debtor side of the cash-book (Form No. V), and shall be treated as a refund. (See Rules 57 and 58.)

42. Every bill or other claim for payment from the District Fund shall be presented in the first instance to the Accountant, who shall check and examine it, and if it be found correct and in order shall submit it for orders to the Chairman. If payment of the bill as presented is to be made, an order for the payment shall be endorsed upon it. The order for payment shall run as follows:—"Pay Rupees                      only (Rs.                      )," the amount being written in words as well as in figures, and shall be signed by the Chairman.

43. If payment is to be made from the permanent advance, the Chairman shall first cause the bill to be stamped with the words "Paid in cash," and shall then sign an order for payment across the bill and pay the money from the permanent advance.

44. If payment is to be made by cheque, the Chairman shall cause the bill to be endorsed with the words "paid by cheque No.                      ," and shall then sign the endorsement and cause the cheque to be drawn out, signed and issued. Whenever necessary and convenient to the treasury, cheques issued from the District Board's office may be encased at the district treasury for payment at a sub-treasury. In all such cases the cheque with the contractor's certificate or bill shall be sent from the District Board's office to the Chairman of the Local Board, where there is a Local Board, or to the Sub-divisional Officer in charge of the sub-treasury concerned for delivery to the payee, an advice under registered cover being sent at the same time to the payee. On delivery of the cheque, the contractor will sign the receipt on the certificate or bill form, and the Chairman of the Local Board, or Sub-divisional Officer will return the bill direct to the District Board's Office.

45. When any payment is made, either by cheque or in cash from the permanent advance, it shall be immediately entered in the accounts of the District Board. In the former case, it shall be entered in the cash-book (Form No. V). In the latter case, it shall be entered in the permanent advance account (Form No. XVI).

46. Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped if necessary, signed by the person to whom the money is due, and to whom it has actually been paid. A receipt signed by another person for the creditor, or with a stamp, is invalid.

47. All bills and vouchers that have been paid by cheque shall be numbered consecutively for the year in order of payment, and shall be pasted in a guard book.

#### CASH-BOOK.

48. The District Fund cash-book shall be kept in Form No. V. The receipt entries in this book shall be made direct from the pass-book in the case of amounts credited direct to the Fund by the Collector of the district. In the case of other receipts the cash-book shall be posted as soon as any money is received in the District Board's office by means of money-order irrespective of whether the money is immediately remitted to the treasury or not.

Expenditure shall be entered day by day as cheques are issued (See also Rule 45).

49. The cash-book shall be closed and balanced once a month and shall be signed by the Chairman. In the event of any cheques issued during a month remaining uncashed by the treasury at close of the month, there will necessarily be a difference between the balance brought out in the cash-book and that of the treasury pass-book, and of the certificate issued by the Treasury Officer under Rule 30. This difference shall be explained by a note in the last page of the cash-book for the month in the following manner:—

		Rs.	A.	P.	Rs.	A.	P.
Balance as per cash-book	...	...	...	...	5,047	15	6

" 28 " 21st " do	...	40	0	0			
					90	0	0
Balance as per cash-book	...	...	...	...	5,137	15	6

#### PERMANENT ADVANCE.

50. When the permanent advance is drawn for the first time, or is subsequently recouped, the amount so drawn or recouped shall be charged off at once in the cash-book as soon as the cheque is issued. The amount so drawn shall be debited to the head "Advances," and posted in the advance ledger (Form No. VIII), and shall remain at the personal debit of the Chairman till they are repaid and accounted for.

51. The Chairman shall make payments from his permanent advance from time to time as may be required. Each bill or voucher so paid shall be stamped "Paid in cash," and every payment shall be entered on both the foil and counterfoil of Form No. XVI.

When it becomes necessary to recoup the permanent advance, the Chairman shall compare the bills and vouchers with the entries in Form No. XVI, shall deface them by stamping them "cancelled," so that they cannot be used again, shall note on the counterfoil of Form No. XVI, "recouped by voucher No.                      , dated                      ," and shall encase the foil for payment of the sum expended and draw a cheque for the amount.

#### CASH ABSTRACT REGISTER OF RECEIPTS AND EXPENDITURE.

52. All the entries on the receipt side of the cash-book (Form No. V) shall be posted direct from the cash-book into the cash abstract register of receipts (Form No. VI), and all the entries on the payment side of the cash-book shall be posted into the cash abstract register of expenditure (Form No. VII).

The cash abstract registers shall be posted as frequently as may be convenient, but in no case later than ten days after the close of the month to which the accounts relate.

53. Each item of receipt or payment appearing in the cash-book shall be posted separately into the cash abstract registers. Thus, if there be two or three payments on the same day on account of the same head of expenditure, there will similarly be two or three entries under the same head in the cash abstract register; *i.e.*, the *separate items* appearing in the cash-book, and not the *totals* of the daily receipts or expenditure for each head, shall be posted into the cash abstract registers.

54. The columns of the cash abstract register shall be totalled every month, and the totals of the different heads of receipt and expenditure must necessarily be equal to the totals of receipts and payments in the cash-book.

#### ADJUSTMENTS.

55. At the foot of each month's account in the cash abstract registers of receipts and expenditure (Forms Nos. IX and X) two lines are left blank for the purpose of entering therein, and bringing upon the books of the District Fund, the adjustments made during the month.

56. Adjustments are transactions which have to be recorded in the monthly and annual account of the District Fund, but which are not actual cash transactions, and which therefore do not in all cases appear in the District Fund cash-book.

57. Adjustments are of four kinds—

- (1) The transfer from one head to another of items of receipt or expenditure wrongly classified in the first instance in the cash abstract registers.
- (2) The transfer of a sum of money from the head "Advances" to a head of expenditure.
- (3) Refunds of revenue received or of expenditure incurred during the current year of account.
- (4) The debit to a head of expenditure by credit to "Deposits received" of a sum of money due on a contractor's bill, but not paid, being retained as a security deposit for the due execution of future works.

These transactions shall be entered item by item in the register of adjustments (Form No. VIII), whence the totals pass into cash abstract registers of receipts and expenditure.

58. The method of entry in the register of adjustments is as follows.—

(a.) In case (1) the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column for the head to which the amount is to be added, and again in red ink in the space for "Adjustments by deduction" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side if the amount is to be transferred from one head of revenue to another, and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

(b.) In case (2) the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken, and on the receipt side in the space for "Adjustments by addition" under the head "Advances recovered." A corresponding entry must of course be made on the receipt or credit side of the advance ledger (Form No. XVII) of the person by whom the expenditure was incurred, and to whom the amount adjusted was originally advanced.

(c.) In case (3) the adjustment shall be made by entering the amount in the space for "Adjustments by deduction" in the column of the receipt or expenditure side for the head to which the amount refunded was originally credited or debited, and on the expenditure or receipt side in the space for "Adjustments by deduction" in the column for "Refunds."

This procedure, however, shall not be followed when the refund made during the month is on account of revenue received during a previous year's account. In this case, the amount refunded will remain at the debit of the head "Refunds," and no adjustment shall be made.

In every case of refund of revenue a note of the refund shall be made against the original entry of receipt in the cash-book or other register, to guard against a second refund of the same amount being accidentally made.

(d.) In case (4), the adjustment shall be made by entering the amount on the expenditure side in the space for "Adjustments by addition" in the column for the head to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the spaces for "Adjustments by addition" under "Deposits received."

59. Adjustments made by deduction in the cash abstract registers shall always be exhibited in red ink.

#### MONTHLY, QUARTERLY, AND ANNUAL ACCOUNTS.

60. Registers of monthly receipts and expenditure shall be kept in Forms Nos. IX and X.

These registers shall be compiled month by month from the cash-book and the total of each head of account shall be checked with that brought out in the cash abstract register.

61. At the close of every month a monthly abstract of receipts and charges extracted by totals of minor heads from the registers of monthly receipts and expenditure (Forms Nos. IX and X) shall be prepared by the District Board in Form No. XII. The memorandum on the first page A of the Form showing the balance of the Fund will simply be a repetition of the memorandum as explained in Rule 49, in connection with the cash-book, reconciling the balance of the cash-book with the balance of the pass-book.

The account supported by the Treasury Officer's balance certificate (*see* Rule 30) shall be despatched to the Accountant-General, Bengal, not later than the 25th day of the month following that for which the accounts are due.

62. The quarterly and annual accounts prescribed by section 54 of the Act shall be compiled from the registers of monthly receipts and expenditure, and shall be in Forms Nos. XIII and XIV.

63. The quarterly account shall be published by lodging a copy, signed by the members of the Finance Committee and countersigned by both Chairman and Vice-Chairman, in the office of the Magistrate and Collector of the district. The annual account shall be published by lodging a copy, signed and countersigned as above, in the office of the Magistrate and Collector of the district, and by publishing in the *Calcutta Gazette*.

64. The quarterly and annual accounts shall be published as provided in the last preceding rule not more than one month after the close of the period to which they respectively relate.

#### ADVANCES AND DEPOSITS.

65. All moneys advanced to officers or employes of the District Board, or to contractors or other persons (whether on account of the permanent advance or otherwise), shall in the first instance be charged to the head "Advances" in the cash abstract register of expenditure and entered in the advance ledger (Form No. XVII). A separate account shall be opened in this ledger for each person to whom an advance has been given, and this account shall be credited with the amount of payments made, and of adjustments made, in the manner prescribed in the second clause of Rule 54.

66. All sums of money received by way of security deposit from contractors or others, and all sums received which are not the property of the District Fund, and have been placed with the District Board for a temporary purpose only, shall be credited to the head "Deposits received" in the cash abstract register of receipts (Form No. VI), and shall be entered on the credit or receipt side of the deposit ledger (Form No. XIX). A separate account shall be opened in this ledger for each person by whom a deposit is made; and this account shall be debited with amount of repayments made, and of adjustments made, in the manner prescribed in the last clause of Rule 57.

67. Each separate account in the ledgers of advances and deposits shall be balanced by the Chairman not less often than once a quarter.

68. At the close of every month abstract accounts shall be prepared of all advances and deposits given or received, and adjusted during the month, and the balances remaining unadjusted.

The abstract of advances shall be prepared in Form No. XIX, and the abstract of deposits in Form No. XXI.

#### RENTS OF POUNDS, FERRIES, AND LANDS AND OTHER RECEIPTS THE DEMAND FOR WHICH IS FIXED BEFOREHAND.

69. Printed and substantially bound registers of receipts on account of pounds, ferries, &c., the demand for which is fixed beforehand, shall be opened each year in Form No. XV annexed, in which specimen entries have been made for guidance.

70. A sufficient number of pages shall be set apart for the index which shall show—

Serial number.	Name of pound or ferry.	Name of lessee.	Page of register.
----------------	-------------------------	-----------------	-------------------

71. On the agreement with the lessee being signed and the security deposit paid, the accountant shall enter the serial number, name of pound, &c., in the index of the register, and shall fill up entries 1 to 9 at the heading of the page assigned to it in the volume, and shall post the amount deposited as security in the deposit ledger.

72. He will then lay the agreement, the register, the deposit ledger, and the pass-book before the Chairman, who shall—

- (a) Initial the entry in the index to the register.
- (b) Carefully compare entries 1 to 9 in the register with the agreement.
- (c) See by reference to the pass-book that the deposit has actually been paid.
- (d) Initial the entry in the pass-book, the deposit register, and memorandum of security deposit received, at the foot of the register, and sign the certificate below entry No. 9 at the head of the register.

73. The accountant will write up monthly the entries of progressive demands, payments, and outstandings in these registers, and on the 7th or nearest working day of each month will lay before the Vice-Chairman the pound and ferry registers, the cash abstract register of receipts, and the pass-book, and the Vice-Chairman will then take up the registers and examine the account of each pound or ferry for the previous month as follows:—

- (a) He will check the receipt by reference to the entries in the pass-book.
- (b) Check the entries in the register with the entries in the cash abstract register in the column "Rent of pounds or ferries farmed out."
- (c) See that the progressive demand, progressive receipts and outstandings have been correctly written up and place his initials in column 8.
- (d) Satisfy himself by reference to the index, if necessary, that no pound or ferry account is missing from the register.

74. The Vice-Chairman will then proceed to deal with arrears and outstandings, and when action is taken by letter of demand or by remission or otherwise, he will call for the register and record the action taken in column 9 and place his initial in column 10.

75. The security deposit, which usually amounts to one-sixth of the annual rent, will ordinarily be taken in satisfaction of the demand for the last two months of the year and should be transferred by adjustment from "deposits" to "pounds" and entered in the pound register on the last day of the year.

If any part of the deposit has been taken as a fine for non-fulfilment of contract, the balance will be taken in part satisfaction of the demand for February and March; and if on the 31st March the deposit or balance of deposit will more than cover the demand, the balance will be refunded in cash to the lessee. But in no case may any sum be removed from deposit and transferred to another head except under the orders of the Vice-Chairman, who shall at the time initial both the deposit ledger and the memorandum of the security deposit at the foot of the register.

#### AUDIT.

76. The Finance Committee appointed under section 55 of the Act shall audit the accounts of the District Fund before they are submitted to the Accountant-General, and shall certify the result and the correctness of the account as audited by them. The certificate shall be given in Form No. XII.

77. The accounts of the District Fund shall be examined and audited by the Examiner of Local Accounts in Bengal not less often than once in 12 months.

In auditing the accounts, the Examiner shall see that they have been kept and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail, and that the payments are supported by adequate vouchers and authority. He shall ascertain whether all sums received, or which ought to have been received, are brought into account, and shall examine whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as are exorbitant; and shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss; and shall disallow and strike out such payments as are not authorised by law or competent authority.

The reports of such examinations shall be forwarded by the Accountant-General, Bengal, to the Commissioner of the Division who shall forward it to the Chairman of the District Board through the Magistrate of the district if he is not the Chairman, and the Chairman shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant-General or the Examiner.

#### LOCAL BOARDS.

78. The statement of requirements and estimate of probable expenditure to be submitted by the Local Board to the District Board under section 51 of the Act shall be in Form No. 11, and shall be accompanied by detailed schedules in Form No. III for each major head of account in respect of which the Local Board has been empowered under section 101 of the Act.

79. The District Board shall forward to each Local Board subordinate to it an extract of so much of the budget estimate of the District Fund, as sanctioned, as relates to the matters under the control and administration of the said Local Board.

80. The District Board shall from time to time make allotments of funds to each Local Board subordinate to it for expenditure on the matters under their control and administration.

81. In making any such allotment, the District Board shall simultaneously send an intimation to the Sudder Treasury Officer, and to the officer in charge of the treasury or sub-treasury at or near the head-quarters of the Local Board concerned.

82. On receipt of such intimation, the officer in charge of the treasury or sub-treasury shall place the amount of the allotment to the credit of the Local Board, and shall enter it on the receipt side of the pass-book of the Local Board. The Local Board shall obtain funds by drawing cheques against the amount of the allotments thus placed at its credit from time to time.

83. Moneys paid into a sub-treasury on account of the District Fund shall not be credited in the pass-book of the Local Board; but shall, when incorporated in the Sudder Treasury account, be credited in the pass-book of the District Board. The Local Board shall send an account of such payments to the District Board not less often than once a month.

84. The Local Board shall keep a cash-book in Form No. V. On the receipt side shall be posted the allotments made by the District Board from time to time; and on the expenditure side shall be posted details of the cheques drawn by the Local Board against the amount of those allotments.

The cash-book shall be closed and balanced on the last day of each month, and signed by the Chairman of the Local Board; and an authenticated copy thereof, supported by vouchers in original, shall be sent within seven days to the Chairman of the District Board.

85. The transactions of the Local Board, as exhibited in the authenticated copy of their cash-book, shall be scrutinized and passed by the Chairman of the District Board, and if found correct shall be at once incorporated in the cash-book and other accounts of the District Board.

### REVENUE DEPARTMENT.

#### A Dictionary of the Economic Products of India.

By DA. GAO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 569 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 80 and in England 3 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

**Bengal for the month of March 1890—continued.**

[illegible]

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS  
TAKEN IN ASSAM, FOR THE MONTH OF MARCH 1890.**

THE transition from the cold-weather conditions to those of the hot season in Bengal, which usually commences at the close of February, becomes complete in March. The normal features of the meteorology of March are therefore rapidly increasing temperature, gradually decreasing pressure, a general increase in the air motion, winds becoming westerly at the inland stations and south-westerly at the southern stations, while the northerly component in the wind directions almost disappears except in Behar; the air is also generally very dry, skies are clear, and there is an almost complete absence of rain, unless the normal weather conditions are disturbed by the occurrence of the local storms known as nor'-westers. These storms are believed to be brought about by the interaction of the more or less opposing wind systems which obtain to a certain extent over Bengal in this month, for at the western stations winds are strongly westerly, at the southern stations strong moist southerly winds usually blow, while easterly winds continue to blow down the Assam Valley, and sometimes penetrate as far as Purneah and Durbhunga. From the nature of the formation of these nor'-westers and their local character, the rainfall brought by them, which is sometimes decidedly heavy, is very irregularly distributed. Occasionally also the normal conditions in March are disturbed by the formation of depressions over Northern India, which extend and travel in a south-easterly direction, and give unsettled weather and perhaps rain to Behar, Chutia Nagpur, and North Bengal, but these barometric depressions are usually less numerous and less influential in character than they are in the previous cold-weather months.

By these irregular actions a moderate amount of rain is brought to Bengal during March. The normal rainfall is heaviest in East Bengal, where it averages about 2·8 inches. In South-West Bengal, North Bengal, and Orissa the fall ranges from about one to one and-a-half inches; in Chutia Nagpur it is rather less than an inch; while in Behar it is rather less than half an inch.

*Meteorology of the month.*—The main features in the meteorology of March 1890, which has been on the whole rather abnormal in character, have been—

1. The mean pressure over the province of Bengal has been rather largely in defect of the normal, the defect usually ranging, from about four to seven-hundredths of an inch. This defect has been fairly equally distributed, but it is actually largest in the northern and north-eastern parts of the province. In Assam also the defect is larger than over Bengal generally, and at Dhubri it amounts to 0·03 inch.

2. The average temperature over Bengal has been in excess of the normal in all districts, and indeed at almost all stations except some close to the hills in North Bengal. The usual excess ranges from about a half to nearly two degrees. In Assam also temperature has been in excess of the normal by about similar amounts.

3. The variations of humidity from the average have not been large, and humidity has been in excess and in defect of the normal at an almost equal number of stations.

4. Cloud proportion has been in excess of the normal by rather considerable amounts at almost all stations in the province at which observations have been taken for a sufficient number of years to yield reliable averages.

5. During March no distinctly-formed or well-marked barometric depressions travelled over Bengal from Northern India, and thus the province was practically free from the second class of disturbances mentioned under the normal meteorology of the month. Generally disturbed conditions, during which rapid and large variations of temperature and pressure occurred, were however prevalent over a considerable part of the province for the first two thirds of the month. These disturbed conditions were not sufficiently intense to produce any very prolonged and general series of the local storms known as nor'-westers in any district, but they only resulted in the formation of rather scattered storms which occurred at irregular intervals. In Behar the few storms which occurred gave rain from about the 4th to the 6th instant; in Chutia Nagpur and South-West Bengal a few showers occurred from the 5th to the 10th instant; in Orissa the showers attending these local storms were more numerous, and they extended up to about the 16th instant; and in East Bengal, as usual, the disturbances extended longer than in other districts, and did not cease until about the 20th; while in North Bengal the number of local storms which occurred was extremely small and, except in a few districts, no rain was received. Speaking generally of the storms of March, it may be said they were more feeble in character than usual.

6. The rainfall generally over the province of Bengal has thus been on the whole rather largely in defect of the normal, and the falls in North Behar, North Bengal, South-West Bengal, and South Behar, vary only from about a quarter to one-half the normal amount; in East Bengal the fall has been about two-thirds the usual; while, on the other hand, in Chutia Nagpur the fall has been slightly in excess of the normal. The only district in which the fall has been in distinct or large excess is Orissa, where the amount of rain received has been about twice as large as usual.

The daily meteorology of March in Bengal and Assam does not call for any particular detailed comment. For the first three weeks the main abnormal features were the very rapid and large changes of barometric pressure and of temperature which occurred. In the latter case changes from temperatures of three to five degrees above the normal to from six to

ten degrees below it occurred within a period of two or three days at different stations in the province, thus showing abnormally large changes even for March. In the case of pressure also the changes were large, in many cases exceeding a tenth of an inch, and in certain cases equalling about a seventh from one day to another; but together with these large daily fluctuations, there was also the steady increase of temperature usual in March, and the establishment of comparatively low pressure. Accompanying these large changes there were also very frequent changes in the wind systems obtaining over Bengal, and to the alternate strengthening of the moist southerly winds and of the dry westerly and north-westerly winds blowing from the interior, which caused the interaction to take place over different districts at different periods, the alteration in the position of formation of the local storms during this period is probably due. During the last ten days of the month, however, these disturbed conditions practically ceased, and a period of very dry hot weather set in, during which the principal feature was the steadily increasing temperature and the establishment of temperature conditions very considerably above the normal. The low pressure which had established itself over Bengal during the earlier part of the month, however, still continued, though it was not so pronounced as it had been, and the winds blowing over the province became those usual during the hot season of the year. The meteorology of the month has therefore been somewhat abnormal, and even up to its close the weather conditions were not entirely normal for the hot season.

**Pressure**—During the first week of the month was above the normal in all districts, the excess usually ranging from about four to seven-hundredths of an inch. In the second week a decidedly rapid fall had occurred, and pressure had become from eight to twelve-hundredths of an inch in defect of the normal. In the third week the defect still continued, and the largest defects were slightly over a tenth of an inch in South-West Bengal, and the smallest about eight-hundredths of an inch in part of South-West and East Bengal. During the last part of the month pressure continued uniformly low, especially over an area extending from the centre of the province northwards over North Bengal. In the fourth week the largest defects were in Purneah and Julpigoree, where they averaged nearly 0.15 inch, and over the remainder of the province generally the defect averaged nearly a tenth of an inch. For the whole month, therefore, the mean pressure has been in defect of the normal, the usual defect ranging from four to seven hundredths of an inch, and being usually largest in the north and north-east of the province and in Assam.

**Temperature**—Was during the first week of the month rather less than a degree below the normal for the period, the largest defects being registered in North Behar and Chutia Nagpur. In the second week the defect had increased slightly, and it averaged one degree, the defect again being large in Chutia Nagpur and also in South-West Bengal. In the third week temperature was generally rising rather rapidly, and the average temperature had become in excess of the normal by amounts ranging up to 2.5°; while in the fourth week the mean temperature both during the day and night had become largely in excess of the normal, the excess averaging from about 2° to 4° in most districts. The mean temperature for the whole month has therefore been generally in excess of the normal, the excess ranging from 0.5° in Orissa to 1.3° in North Bengal. In Assam temperature has been slightly below the normal.

The following table will show the principal variations of the day, night and mean temperatures from the normal in each week of the month at nine typical stations in different districts of the province:—

*Rainfall.*--The heaviest falls of rain during the month have occurred in Orissa, the stations in which have received an average amount of 2·37 inches, which is rather more than twice the usual fall. In East Bengal also an average fall of two inches has been received, but this is very little more than two-thirds the usual fall. Chutia Nagpur has received an average rainfall of one inch, which is slightly in excess of the normal amount. The stations in South-West Bengal have received an average fall of 0·57 inch, which is only about one-third of the usual amount. In all other cases the falls are exceedingly small, and average less than a third of an inch, and they are in all cases largely below the normal, the falls generally equalling from a fourth to about one-half the normal falls.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the month of March 1890 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last year. The humidity of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 4th of April 1890.

CALCUTTA, the 8th April 1890.

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 4TH OF APRIL 1890.

DURING the past week very dry weather with fairly high temperature has continued, no rain having fallen at any of the stations in the province. Notwithstanding the absence of rain, temperature, though above the normal for the week, has not been so much in excess as during the previous week, and pressure having been rising slowly but continuously, the large defect, which has been so characteristic a feature for some time, has disappeared, and a slight excess was general in Bengal towards the end of the week. Wind circulation has been almost without change from first to last, south or south-west directions prevailing in the southern districts, westerly in Behar, and easterly or north-easterly in the north-east corner; the last being due to the winds from the Assam valley.

On Saturday, the first day of the week, pressure was about a twentieth of an inch in defect, except in Chutia Nagpur, and temperature from four to six degrees above the normal, the largest excess being  $7.8^{\circ}$  at Mymensingh. On the following day pressure was slightly in excess in Chutia Nagpur and South Behar, while the defects had diminished elsewhere. The change of pressure on Sunday was from one to two-hundredths of an inch, except in North Bengal and South Behar, where it was from two to three-hundredths. Temperature changed irregularly, but had generally fallen. Similar changes continued during the rest of the week, and from Wednesday, the 2nd of April, pressure was everywhere above the normal by small amounts, while temperature was deficient in Behar, Chutia Nagpur, and part of South-West and North Bengal. On Friday, the last day of the week, pressure was in excess by amounts ranging from 0.05 inch to 0.08 inch, and temperature was below the normal in Orissa and Behar, but was only from one to two degrees above in the other districts.

**Pressure**—As shown above, has been slowly rising throughout the week, changes being in all cases small except on Friday, when there was a more rapid rise in East and North Bengal. The result of the steady rise is that from being about a twentieth of an inch below, it has become a twentieth of an inch above the normal. The means for the week are very nearly normal, excess being under a hundredth of an inch except in Behar and Chutia Nagpur, where it ranges from two to four-hundredths.

**Temperature**—Continues in excess during both night and day, but the night temperatures are relatively lower this week, the difference from the normal at the stations given in the table below being generally between one and two degrees. Maximum temperatures are more irregular, for at Calcutta, Dacca, Purneah, and Darjeeling, mean excess is from  $3^{\circ}$  to  $4^{\circ}$  above the normal, but at Cuttack, Burdwan, Patna, and Hazaribagh it is  $2^{\circ}$  or under. The means for the large divisions of the province are nearly normal in Orissa and Behar,  $1^{\circ}$  above in Chutia Nagpur,  $1.5^{\circ}$  in North Bengal, and nearly  $3^{\circ}$  in South-West and East Bengal.

The actual temperatures during the week, the range from day to night, and their variation from the normals, are seen in the following table, where the average maximum, minimum and mean temperatures at nine typical stations in different districts in the province are given together with their normal values:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 4th April 1890.

	Normal mean maximum temperature for the week ending 4th April.	Actual mean maximum temperature for the week ending 4th April 1890.	Variation of actual mean from the normal. MEMORANDUM.

THE following summary of results has been deduced from the annexed table exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 22nd March 1890 :—

1. The ratios per mille of births stood at 22·8 as opposed to 20·9 during the preceding week ending 15th March, and of deaths at 21·5 against very nearly the same proportion, viz., 21·7. There was thus an improvement in the registration of births only.

2. The following Municipalities registered the highest proportions of births and deaths :—

<i>Births.</i>				<i>Deaths.</i>			
			Ratio per mille.				Ratio per mille.
Arrah	...	...	56·2	Jessore	...	...	61·2
Utterpara	...	...	47·2	Midnapore	...	...	49·6
Ranaghat	...	...	41·9	Poori	...	...	48·3

3. The mortality from the registered death-causes was as follows, in comparison with that in the preceding week ending 15th March :—

				Ratio per mille during the weeks ending—

Injury	...	...	...	·4	·3
Other causes	...	...	...	5·4	5·4

The above figures denote chiefly that there was a noticeable decrease in the death-rate from cholera with an increase in that from fever.

4. Of the abovementioned death-causes, cholera, fever, and the maladies returned under the head "Other causes" proved conspicuously fatal in the following Municipalities :—

<i>Cholera.</i>			<i>Fever.</i>			<i>Other causes.</i>

### REVENUE DEPARTMENT.

- A Dictionary of the Economic Products of India.**
- By DR. GEO. WATT, C.I.E.,  
Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.
- The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.
- The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

\*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.
